**Taiwan Faces the Twenty-first Century** Steven Martin Goldstein,1997 *Taiwanese Identity in the Twenty-first Century* Gunter Schubert,Jens Damm,2011 As we look to enter the second decade of the 21st century Taiwan e tm s quest for identity remains the most contentious issue in the domestic arena of Taiwanese politics From here it spills over into the cross Strait relationship and impacts on regional and global security Whether Taiwan is a nation state or whether Taiwan has any claim to be a nation state and how Taiwan should relate to China are issues which have long been hotly debated on the island although it seems that much of this debate is now more focused on finding an adequate strategy to deal with the Beijing government than on the legitimacy of Taiwan e tm s claim to sovereignty as the Republic of China The collection of chapters in this book shed light on very different aspects of Taiwan e tm s current state of identity formation from historical political social and economic perspectives both domestically and globally As such it will be invaluable reading for students and scholars of Taiwan studies politics history and society as well as those interested in cross Strait relations Chinese politics and Chinese international relations ee

Annotation c 2003 Book News Inc Portland OR booknews com      *Israel-Asia Relations in the Twenty-First Century* Yoram Evron, Rotem Kowner, 2023-09-25 This book examines Israel's growing interaction with Asia's sub regions and countries since the 1990s. It shows how these interactions have increased in recent years both at government level and for companies, entrepreneurs, academic institutions, religious groups, tourists, and NGOs. Likewise, it discusses the evolving shared interests between Israel and Asian states and demonstrates how Asian countries adopted sophisticated policies that allowed them to get closer to Israel without compromising their traditional support of the pro Palestinian position. It also explores how Israel differentiates between different regions, circles of importance, and countries in Asia rather than sees Asia as a monolithic whole. This groundbreaking book concludes by assessing the overall state of relations at present and likely future developments.

(En) *Gendering Taiwan* Ya-chen Chen, 2017-10-15 This book highlights the diversity and richness of non Mainland China and Taiwan oriented gender issues from a unique Taiwanese perspective in contrast to previous studies that have often placed Taiwanese gender issues under the huge umbrella of Mainland Chinese Communist Chinese or P R C women's and gender studies. In a follow up dialogue to and with Liu's Karl's and Ko's *The Birth of Chinese Feminism*, this book looks at the various metaphorical details of that birth and the different dimensions of Mainland Chinese versus Taiwanese feminism and gender issues. Although Chinese heritage people share similar traditions, different gender problems have occurred in and challenged various local conditions of Chinese speaking areas. Taiwan's gender issues have reflected Taiwan's unique historical, sociocultural, economic, political, post colonial, military, and diplomatic backgrounds in ways unfamiliar to the many people with a Chinese background who are not Taiwanese. This volume gives a historical outline of the people and events that paved the way for the rise of Taiwanese feminism and includes portraits of famous feminists, gender issues in institutions, and a variety of gender concerns.

**International Labor Mobility to and from Taiwan** Yumiko Nakahara, 2017-08-31 This book is the first to cover the research of whole aspects of international mobility to and from Taiwan of both skilled and unskilled workers. The migration of skilled workers is a field that has not been well researched, although it is becoming very important for the economic growth of newly developing countries. The brain circulation through which workers who return to their home country bring back technology and the business style of a developed country contributed greatly to Taiwan in the 1980s and 1990s. However, according to the author's research, there is a little expectation that returnees now will contribute as in the past, as the proportion of students leaving Taiwan to study abroad is decreasing. Taiwanese companies therefore are seeking skilled human resources from developed countries in other ways. The author also found that some Taiwanese have been to China, Singapore, or Japan in response to companies and universities recruiting by offering high monetary compensation. This book clarifies those aspects of international skilled labor mobility to and from Taiwan and also analyzes the various issues regarding unskilled foreign laborers in Taiwan. There has been a gradual increase in unskilled foreign laborers working both in industry and in domestic care in Taiwan. This book elucidates the

various controversial issues arising from the increased presence of foreign laborers for instance the costs of employing foreign laborers or problems related to the foreign workforce      American Policy Toward China for the Twenty-first Century Ying Cheng Kiang,2001      **Taiwan and Mainland China Toward the Twenty-first Century** Winston L. Y. Yang,Deborah Ann Brown,1998      **US-China Rivalry** Brian C. H. Fong,2024-11-30 US China Rivalry offers a holistic analysis of the unfolding of US China competition in the Indo Pacific using a novel theory called neo offensive realism It synthesises quantitative and qualitative data to examine the intensification of US China competition across the Indo Pacific in recent years with a focus on why the competition is intensifying under the interplay of system level and unit level forces where the competition is unfolding across states and quasi states in the region how the competition is conducted through economic and military influence mechanisms and whither the competition is developing in the future      *Taiwan's open economy in the twenty-first century* Yuan-li Wu,1989      蕭美琴,2005      *The Political Economy of Taiwan's Foreign Policy* Jiaying Wang,1999      *The New Knowledge Economy of Taiwan* Tain-Jy Chen,Cheng Li,2004 Taiwan once one of the world s leading manufacturing economies is now transforming into a service economy with an emphasis on knowledge based services This has meant major changes in the industrial sector and this book explores the human resource implications that this change has identified      Chinese Education and Society ,1994      *Envisioning Taiwan* June Yip,2004-10-07 Traces the growth and evolution of a Taiwan s sense of itself as a separate and distinct entity by examining the diverse ways a discourse of nation has been produced in the Taiwanese cultural imagination      *The American Asian Review* ,1996      **Issues & Studies** ,2007
