The Bar Code Implementation Guide Using Bar Codes In Distribution Paperback:

An Executive's Guide to Information Technology Robert Plant, Stephen Murrell, 2007-05-17 Assessing the most valuable technology for an organization is becoming a growing challenge for business professionals confronted with an expanding array of options This 2007 book is an A Z compendium of technological terms written for the non technical executive allowing quick identification of what the term is and why it is significant This is more than a dictionary it is a concise review of the most important aspects of information technology from a business perspective the major advantages disadvantages and business value propositions of each term are discussed as well as sources for further reading and cross referencing with other terms where applicable The essential elements of each concept are covered in a succinct manner so the reader can quickly obtain the required knowledge without wading through exhaustive descriptions With over 200 terms this is a valuable reference for non and semi technical managers executives and graduate students in business and technology management

Food Traceability and Authenticity Didier Montet, Ramesh C. Ray, 2017-11-22 Food traceability is a growing consumer concern worldwide Traceability is undertaken primarily at the administrative level where the use of advanced analytical tools is not available Nevertheless the determination of geographical origin is a requirement of the traceability system for the import and export of foodstuffs EU regulation 178 2002 The topics covered in this book include the history of traceability legislations and rules the actual traceability techniques and the potential analytical techniques for food traceability such as molecular methods e g DGGE SSCP next generation sequencers NGS bio captors chromatographic techniques isotopic analysis that are used for discrimination of organic food fish oils The chromatographic techniques help in the use of volatile compounds analysis The isotope analysis helps in distinguishing between chicken meat and vegetable oils Ambient mass spectrometry is used for studying mycotoxins and alkaloids in foodstuffs and their management food and feed authentication in olive and other plant oils and wine Vibrational methods e g NMR and NIRS are used to trace food by global spectrum The book reviews the current and future techniques including metabolomic techniques

The Bootstrapper's Guide to the Mobile Web Deltina Hay, 2012-05-01 Creating a successful mobile web presence is achievable with the tools found in this guide without needing to learn a programming language or become a Web designer Such a presence is now a necessity rather than a luxury for all businesses organizations and independent professionals to stay competitive This quick practical hands on introduction to the nuts and bolts of using the mobile web to grow a brand improve sales and increase profits is written for lay people and avoids jargon and programming concepts Time and money saving solutions are presented teaching technical novices how to quickly adapt their existing websites to the mobile ones and how to easily create mobile applications without having to learn to program Step by step instructions stand alongside real world examples of successful mobile web transitions and advice on best practices is provided to help business owners entrepreneurs marketing professionals and creative professionals create the presence they need to help their business flourish
