The Bastards Tale Margaret Frazer, 2004 In the year 1447 powerful men from all the realm of England have been summoned to Parliament in the great pilgrimage town of Bury St Edmunds Most come for the straightforward business of making laws and passing taxes but a small group of great nobles are planning to use this chance to bring down by treachery and treason their greatest rival Against her will and under cover of her friendship with Lady Alice of Suffolk her high placed cousin Dame Frevisse is brought from her nunnery into the fringes of this swirl of politics and plotting by the ambitious Bishop of Winchester Meant to observe and report to him what she sees she is instead drawn into the very centre of treachery and death encircling the throne of England The pity is that desperate acts of loyalty and love are not always enough to save men from murder and an innocent man from the gallows

Tales of the Field John Van Maanen, 2011-07 Once upon a time ethnographers returning from the field simply sat down shuffled their note cards and wrote up their descriptions of the exotic and quaint customs they had observed Today scholars in all disciplines are realizing how their research is presented is at least as important as what is presented Questions of voice style and audience the classic issues of rhetoric have come to the forefront in academic circles John Van Maanen an experienced ethnographer of modern organizational structures is one who believes that the real work begins when he returns to his office with cartons of notes and tapes In Tales of the Field he offers readers a survey of the narrative conventions associated with writing about culture and an analysis of the strengths and weaknesses of various styles He introduces first the matter of fact realistic report of classical ethnography then the self absorbed confessional tale of the participant observer and finally the dramatic vignette of the new impressionistic style He also considers more briefly literary tales jointly told tales and the theoretically focused formal and critical tales Van Maanen illustrates his discussion of each style with excerpts from his own work on the police Tales of the Field offers an informal readable and lighthearted treatment of the rhetorical devices used to present the results of fieldwork Though Van Maanen argues ultimately for the validity of revealing the self while representing a culture he is sensitive to the differing methods and aims of sociology and anthropology His goal is not to establish one true way to write ethnography but rather to make ethnographers of all varieties examine their assumptions about what constitutes a truthful cultural portrait and select consciously and carefully the voice most appropriate for their tales Written with grace and humor Tales of the Field will be an invaluable introduction to novices just learning the fieldwork trade and provocative stimulant to veteran ethnographers Engaging and well written H Ottenheimer Choice
