# MAN BURNS FINGER IN FIRE

Bad news guys try to convince Miss Flint that fire burns like water.

## CAVE DWELLERS IN GRAFFITI BATTLE

**T**enants of the Lascaux caves in the Dordogne are seething. They've been given two weeks to get out of their homes, all on account of a little wall painting.

"They're vandals," said the caves' landlord. "Before these people moved in, the caves were in excellent condition. Now they're covered in graffiti which will cost a fortune to clean."

"The landlord's an idiot," reported a spokesman for the Residents' Association. "These paintings aren't graffiti. They're a vital part of our kids' upbringing. Look. Here's a bull. And here's its hoof print. See? During the long winter months we put a lot of effort into these paintings so that our children can recognize the animal and its track. It makes the hunting season so much easier."

Graffiti - the curse of the modern age.

Imagine what would happen if we didn't do it. We'd have kids running at a cave lion or leopard shouting, "Goat! Eat my meat!"

and now this pretty red stuff in the cave. Naturally, I reached out to touch it. Imagine my surprise when I got burned. It was fire!"

### SWEEEPING THE WORLD

Fire, previously a natural phenomenon, has entered the home. Reports from around the world point to widespread use of this dangerous new domestic appliance.

Insurance companies blame the Society of Firemakers. "They go out with long sticks looking for fire wherever they can find it," said a spokesman. Bush fires, lightning strikes, volcanoes, anything that's hot. Then they put their sticks in the flame and rush back to start fires in a household situation. This

is potentially lethal." The firemakers aren't giving any ground. "We have every sympathy for Sid's plight," said one. "But people have to realize that fire is the way forward. If we didn't have fire, we wouldn't be able to cook meat, and those of us who live in cold climates wouldn't be able to survive at all. Fire's here to stay."

### HEALTH SCARE

Members of WEBO - We Eat Berries Only - a splinter group of HACAU - Hunters And Gatherers' General Union - have responded angrily.

"Cooking's death! We don't need this kind of thing. We all know what happens when you get a piece of half-cooked meat. Salmonella!" said a spokesperson.

## **Stone Age Sentinel:**

*Stone Age Sentinel* Fergus Fleming, Paul Dowswell, 1998-08 Tabloid style articles offer information about ancient Rome including its culture customs religion and history from its founding through its Hellenistic period *Handbook of Pleistocene Archaeology of Africa* Amanuel Beyin, David K. Wright, Jayne Wilkins, Deborah I. Olszewski, 2023-08-17 This handbook showcases an Africa wide compendium of Stone Age archaeological sites and methodological advances that have improved our understanding of hominin lifeways and biogeography in the continent. The focal time spans the Pleistocene Epoch c. 2.5 million to 11,700 years ago during which important human traits such as obligate bipedalism that freed the hands to engage in creative activities, a large brain relative to body size, language, and social complexity developed in the general forms that they are found today. The handbook is the first of its kind and it is expected to play a significant role in human evolutionary research by collating the African Stone Age record which exists in a fragmented state along the lines of national boundaries and colonial experiences. Showcasing emerging conceptual and methodological advances in African Pleistocene archaeology. Providing reference datasets for teaching and researching African prehistory. Making Africa's Stone Age record accessible to researchers and students based in Africa who may not have access to journal publications where most new field discoveries are published. The Handbook features 128 chapters of which 116 are site entries grouped by the host countries and presented in an alphabetical order. A number of those site related entries examine multiple archaeological localities lumped under specific projects or study areas. The rest of the contributions deal with methodological topics such as luminescence and radiocarbon dating, field data recovery, lithic analysis, micromorphology, and hominin fossil and zooarchaeological records of Pleistocene Africa. The introductory chapter provides an historical overview of the development of Stone Age Paleolithic archaeology in Africa beginning in the mid 19th century and paleoenvironmental and chronological frameworks commonly used to structure the continent's Pleistocene record. By making a good amount of African Stone Age literature accessible to researchers and the public we wish to promote interest in human evolutionary research in the continent and elsewhere. Awarded the 2025 The Best Book Award by The Society of Africanist Archaeologists.

**The Sentinel Islanders** M. Sasikumar, 2023-01-01 The Sentinel Islanders, also called the Sentinelese, are one of the five Particularly Vulnerable Tribal Groups (PVTGs) of the Andaman and Nicobar islands. They live in the North Sentinel Island of the Andaman group of Islands situated in the Bay of Bengal. They are perhaps the only truly isolated hunter gatherer tribal community in the world today. Of the five PVTGs the Sentinel Islanders are usually described as the most uncontacted and most reclusive people on earth. Till today this group has maintained their independent existence, repelling all attempts to directly engage with and contact them. They remained steadfast in opposition to all the efforts of the colonial and post-colonial administration to contain them with the might of their bows and arrows. Incredibly they also managed to survive the 2004 Indian Ocean Tsunami which had a devastating effect on the people of the island groups. Curiosity about their lifestyles

has endured all these years in all sections of society since 1771 when an East India Company vessel sailing past their island spotted the presence of lights there It was however in November December 2018 that the Sentinelese received international attention when an American national went missing after having ventured to encroach upon their land It was alleged that a Sentinelese killed him after warning him twice to leave the island This has further reinforced the image of ferocity of a people who do not want any interference from the outside world in their subsistence patterns and long to remain as the masters of their island In this book an attempt has been made to understand their way of life from an anthropological perspective in the light of available historical and anthropological evidences *Sentinel's Dilemma* George M.

**The British Flag & Christian Sentinel** ,1875     **In the Forest** Vishvajit Pandya,2009-04-16 There are always at least two histories of encounter or contact as each party would tell the story differently but where and when is it really the first contact and for whom This book deploys an analytical framework developed from Semiotics to have both sides of the story address each other It is ethnography of dialogue emerging from textual representation by outsiders and its relationship to visual response and presentations by the Andaman Islanders that this book aims to present as the critical ethnography of history The section on Visuality looks at how the Other is incorporated into an organized knowledge system including Ongee myths and songs about outsiders and the early photographs of tribal people by British settlers and ethnographers The section on Materiality concerns the investment in things made to influence natural processes or to distinguish the human body and discusses how they are transacted between cultures that come into contact The concluding section on history addresses encounters and developments in which the experiences of both tribal and settler are implicated more thoroughly than in the transaction of objects Thus juxtaposing alternative perspectives on change indicates areas of experience unaccounted for in the dominant discourse and shows the provisionality of images     **Sentinel Island: A Novel** Benjamin
