Stories Of The Old World:

Truth and History in the Ancient World Lisa Hau, Ian Ruffell, 2016-11-03 This collection of essays investigates histories in the ancient world and the extent to which the producers and consumers of those histories believed them to be true Ancient Greek historiographers repeatedly stressed the importance of truth to history yet they also purported to believe in myth distorted facts for nationalistic or moralizing purposes and omitted events that modern audiences might consider crucial to a truthful account of the past Truth and History in the Ancient World explores a pluralistic concept of truth one in which different versions of the same historical event can all be true or different kinds of truths and modes of belief are contingent on culture Beginning with comparisons between historiography and aspects of belief in Greek tragedy chapters include discussions of historiography through the works of Herodotus Xenophon and Ktesias as well as Hellenistic and later historiography material culture in Vitruvius and Lucian's satire Rather than investigate whether historiography incorporates elements of poetic rhetorical or narrative techniques to shape historical accounts or whether cultural memory is flexible or manipulated this volume examines pluralities of truth and belief within the ancient world and consequences for our understanding of culture ancient or otherwise *The Old World, the New World, and the Creation of the Modern World, 1400/1650* Aaron M.
