**the Formation of Taste in Eighteenth-Century Britain** Robert W. Jones, 1998-07-02 Beauty is one of the most important and intriguing ideas in eighteenth century culture In Gender and the Formation of Taste in Eighteenth Century Britain Robert Jones provides a fresh understanding of how emergent critical discourses negotiated with earlier accounts of taste and beauty in order to redefine culture in line with the polite virtues of the urban middle classes Crucially the ability to form opinions on questions of beauty and the capacity to enter into debates on its nature was thought to characterise those able to

participate in cultural discourse Furthermore the term beauty was frequently invoked in various and contradictory ways to determine acceptable behaviour for women In his book Jones discusses a wide range of material including philosophical texts by William Hogarth and Edmund Burke and Joshua Reynolds novels by Charlotte Lennox and Sarah Scott and the many representations of the celebrated beauty Elizabeth Gunning

**The Ohio Review** ,1974 *Modern Women, Modern Work* Francesca Sawaya,2013-04-19 Focusing on literary authors social reformers journalists and anthropologists Francesca Sawaya

demonstrates how women intellectuals in early twentieth century America combined and criticized ideas from both the Victorian cult of domesticity and the modern culture of professionalism to shape new kinds of writing and new kinds of work for themselves Sawaya challenges our long standing histories of modern professional work by elucidating the multiple ways domestic discourse framed professional culture Modernist views of professionalism typically told a racialized story of a historical break between the primitive feminine and domestic work of the Victorian past and the modern masculine

professional expertise of the present *Modern Women Modern Work* historicizes this discourse about the primitive labor of women and racial others and demonstrates how it has been adopted uncritically in contemporary accounts of professionalism modernism and modernity Seeking to recuperate black and white women s contestations of the modern professions Sawaya pairs selected novels with a broad range of nonfiction writings to show how differing narratives about the transition to

modernity authorized women's professionalism in a variety of fields. Among the figures considered are Jane Addams, Ruth Benedict, Willa Cather, Pauline Hopkins, Zora Neale Hurston, Sarah Orne Jewett, Josephine St. Pierre Ruffin, and Ida Tarbell. In mapping out the constraints women faced in their writings and their work and in tracing the slippery compromises they embraced and the brilliant adaptations they made, *Modern Women Modern Work* boldly reenvisiones the history of modern professionalism in the United States.
