Post-War French Popular Music: Cultural Identity and the

Brel-Brassens-Ferré Myth Adeline Cordier, 2016-04-08 Jacques Brel, Georges Brassens et Léo Ferré are three emblematic figures of post-war French popular music who have been constantly associated with each other by the public and the media. They have been described as the epitome of chanson and of Frenchness. But there is more to the trio than a musical trinity: this new study examines the factors of cultural and national identity that have held together the myth of the trio since its creation. This book identifies the combination of cultural and historical circumstances from which the works of these three singers emerged. It presents an innovative analysis of the correlation between this iconic trio and the evolution of national myths that nurtured the cultural aspirations of post-war French society. It explores the ways in which Brel, Brassens and Ferré embody the myth of the left-wing intellectual and of the authentic Gaul spirit and it discusses the ambiguous attitude of post-war French society towards gender relations. The book takes an original look at the trio by demonstrating how it illustrates the popular representation of a key issue of French national identity: the paradoxical aspiration to both revolution and the maintenance of the status quo.

Chanson Peter Hawkins, 2017-09-29 En France tout finit par des chansons is the well-known phrase which sums up the importance of chanson for the French. A song tradition that goes back to the Middle Ages and troubadours of the twelfth and thirteenth centuries chanson is part of the texture of everyday life in France a part of the national identity and a barometer of popular taste. In this first study of chanson in English Peter Hawkins examines the background to the genre and the difficulties in defining what is and what is not chanson. The focus then moves to the development of the singer-songwriter of chanson from 1880 to the present day. This period saw the emergence of national icons from Aristide Bruant at the end of the nineteenth century through to internationally recognized musicians such as Jacques Brel and Serge Gainsbourg. Each of these figures used chanson to express the particular moral dilemmas tragic situations and moments of euphoria particular to themselves and their times. The book provides bibliographies, discographies and details of video recordings for each of the singer-songwriters that it discusses. It is both an essential reference guide to
