Stop Forgetting:

The End of Forgetting Kate Eichhorn, 2019-07-09 Thanks to Facebook and Instagram our childhoods have been captured and preserved online never to go away But what happens when we can't leave our most embarrassing moments behind Until recently the awkward moments of growing up could be forgotten But today we may be on the verge of losing the ability to leave our pasts behind In The End of Forgetting Kate Eichhorn explores what happens when images of our younger selves persist often remaining just a click away For today's teenagers many of whom spend hours each day posting on social media platforms efforts to move beyond moments they regret face new and seemingly insurmountable obstacles Unlike a high school yearbook or a shoebox full of old photos the information that accumulates on social media is here to stay What was once fleeting is now documented and tagged always ready to surface and interrupt our future lives Moreover new innovations such as automated facial recognition also mean that the reappearance of our past is increasingly out of our control Historically growing up has been about moving on achieving a safe distance from painful events that typically mark childhood and adolescence But what happens when one remains tethered to the past From the earliest days of the internet critics have been concerned that it would endanger the innocence of childhood The greater danger Eichhorn warns may ultimately be what happens when young adults find they are unable to distance themselves from their pasts Rather than a childhood cut short by a premature loss of innocence the real crisis of the digital age may be the specter of a childhood that can never be forgotten
