International Handbook of Violence Research Wilhelm Heitmeyer, John Hagan, 2005-08-12 An international manual is like a world cruise a once in a lifetime experience All the more reason to consider carefully whether it is necessary This can hardly be the case if previous research in the selected field has already been the subject of an earlier review or even several competing surveys On the other hand more thorough study is necessary if the intensity and scope of research are increasing without comprehensive assessments That was the situation in Western societies when work began on this project in the summer of 1998 It was then too that the challenges emerged any manual especially an international one is a very special type of text which is anything but routine It calls for a special effort the state of the art has to be documented for selected subject areas and its presentation made as compelling as possible The editors were delighted therefore by the cooperation and commitment shown by the eighty one contributors from ten countries who were recruited to write on the sixty two different topics by the constructive way in which any requests for changes were dealt with and by the patient response to our many queries This volume is the result of a long process It began with the first drafts outlining the structure of the work which were submitted to various distinguished colleagues Friedhelm Neidhardt of Berlin Gertrud Nunner Winkler of Munich and Roland Eckert of Trier to name only a few supplied valuable comments at this stage

Combating Torture Amnesty International, 2003 Combating Torture brings together ideas campaign techniques and government standards and provides ideas about how they can be best implemented Case studies highlight how these have been used in practice all over the world

Amnesty Now, 2000 *End Impunity* Amnesty International, 2001 Every day all over the world men women and children are subjected to torture Usually these crimes are not investigated and no one is prosecuted This book highlights the need for more pressure on governments to investigate cases at all levels

The Muslim World, 2001 **Hidden Scandal, Secret Shame** Amnesty International, 2000 Children and torture Torture of children during conflict Torture at the hands of the police Torture of children in detention

The Phenomenon of Torture United States. Congress. House. Committee on Foreign Affairs, 1984 □□□□, 2007

Broken Bodies, Shattered Minds Amnesty International, 2001 Reports on the torture and ill treatment of women by agents of the state armed groups and family members The report claims that far from taking action to prevent this violence governments around the world have abandoned their responsibilities and neglected to take effective measures

United States of America--a Safe Haven for Torturers William J. Aceves, Amnesty International USA., 2002

Ending the Torture Trade, 2020 Law enforcement equipment which is inherently abusive or which is readily misused for torture or other ill treatment continues to be traded across the world But legal and administrative restrictions have advanced significantly over the past two decades As the UN considers the feasibility of a global instrument this report brings together illustrative cases

of equipment misuse and proposes an anti torture trade framework to help states and the UN to close remaining gaps To fulfil their obligations to prevent and eradicate torture and other ill treatment all states must ensure that the trade in abusive goods is prohibited and that other law enforcement equipment is only traded under robust human rights compliant trade controls

Undermining Global Security Amnesty International,2004 Contains disturbing examples of exports from existing or new EU Member States of military security and police MSP equipment technology and expertise used for grave human rights violations or breaches of international humanitarian law Reveals the arms production and exporting activities of the ten new countries joining the EU on 1st May 2004 Explores how the enlarged EU will have over 400 companies in 23 countries producing small arms and light weapons Demonstrates how this dramatic enlargement of the EU presents both potential opportunities and dangers for European arms control Analyses the current policies and practices of 15 EU Member States and the 10 new Member States with regard to their control of the transfer of military security and police MSP technology weaponry personnel and training It demonstrates why Amnesty is convinced that more effective EU mechanisms to control MSP exports are urgently required to help protect human rights and ensure respect for international humanitarian law

International Law of Cooperation and State Sovereignty Jost Delbrück,Ursula E. Heinz,2002 It was in the early 1990s more precisely in 1991 shortly after the end of the Cold War that the Walther Schöningh Institute at Kiel University within the framework of its biennial international conferences started a series of international symposia which in retrospect can be subsumed under the overall heading of international law at the frontiers The aim of these thematically closely related symposia bringing together eminent international legal scholars was to explore the structural changes that the international system and its legal order were undergoing due to the forces of globalization and the political upheavals following the end of the ideological division of the world The present papers and proceedings of the fifth conference of the series of symposia brings this project to an end The authors are exploring the meaning of the concept of the international law of cooperation and the obligation to cooperate in three important areas of modern international law the international protection of human rights Lori Fisler Damrosch New York international economic and environmental law Christian Tietje Halle and international dispute settlement Anne Peters Basel The implications of the state obligations to cooperate for the conceptualization of sovereignty in present international law are the subject of the fourth paper Christoph Schreuer Wien Although the host of information provided by the rapporteurs revealed the immense importance of obligations to cooperate in international conventional law as a steering tool in international relations it also became clear that a general concretization of the meaning of obligations to cooperate cannot presently be established if ever The concrete meaning of the obligation to cooperate has to be interpreted within the actual context in which such obligations are stipulated It was also concluded that obligations to cooperate surely constitute major restraints on the sovereign freedom of action of states However they are not incompatible with the notion of state sovereignty as it is recognized under modern international law States today are embedded in a

network of institutionalized legal regimes under which sovereignty in contrast to the pre World War I era cannot legally be exercised at will Sovereignty has to be re conceptualized in the light of the international law of cooperation and the ensuing obligations to cooperate that are crucial for the development of an International Civil Society under the rule of law
