## **Stories Of Fact Fantasy:**

*The History of the Science-fiction Magazine* Michael Ashley, Mike Ashley, 2000-01-01 This is the first of three volumes that chart the history of the science fiction magazine from the earliest days to the present. This first volume looks at the exuberant years of the pulp magazines. It traces the growth and development of the science fiction magazines from when Hugo Gernsback launched the very first *Amazing Stories* in 1926 through to the birth of the atomic age and the death of the pulps in the early 1950s. These were the days of the youth of science fiction when it was brash, raw and exciting, the days of the first great space operas by Edward Elmer Smith and Edmond Hamilton through the cosmic thought variants by Murray Leinster, Jack Williamson and others to the early 1940s when John W. Campbell at *Astounding* did his best to nurture the infant genre into adulthood. Under him such major names as Robert A. Heinlein, Isaac Asimov, A. E. van Vogt and Theodore Sturgeon emerged, who along with other such new talents as Ray Bradbury and Arthur C. Clarke helped create modern science fiction. For over forty years magazines were at the heart of science fiction and this book considers how the magazines and their publishers, editors and authors influenced the growth and perception of this fascinating genre.

### **Story** Harold

Scheub, 1998-10-01 What is the essence of story? How does the storyteller convey meaning? Leading scholar Harold Scheub tackles these questions and more, demonstrating that the power of story lies in emotion. While others have focused on the importance of structure in the art of story, Scheub emphasizes emotion. He shows how an expert storyteller uses structural elements, image, rhythm and narrative to shape a story's fundamental emotional content. The storyteller uses traditional images, repetition and linear narrative to move the audience past the story's surface of morals and ideas and make connections to their past, present and future. To guide the audience on this emotional journey is the storyteller's art. The traditional stories from South African, Xhosa and San cultures included in the book lend persuasive support to Scheub's. These stories speak for themselves, demonstrating that a skilled performer can stir emotions despite the obstacles of space, time and culture.

*Tolkien and the Kalevala* Jyrki Korppa, 2024-08-19 This book explores J. R. R. Tolkien's unique and warm relationship to the *Kalevala*, a poem usually hailed as the Finnish and Karelian national epic. Compiled, edited and partly revised from older folk poetry by Finnish scholar Elias Lnnrot in the 19th century, J. R. R. Tolkien, an Oxford academic and the greatest author of the 20th century fantasy creator of *The Hobbit* and *The Lord of the Rings*, was fascinated from early on by the *Kalevala*. Tolkien himself described the *Kalevala* as a germ of his fantasy fiction.

### **South to the Future** Fred C.

Hobson, 2002 Until recently the American South has often been treated in isolation by historians and literary critics. In these essays, five scholars of southern history and literature evaluate elements of contemporary and future southern experience, including place, community, culture, class, gender and racial roles. Fred Hobson observes in his introductory essay that the U.S. South must be seen in relation to a larger world: the Caribbean and Central and South America, as well as European countries, with a similar grounding in hardship and defeat. Moreover, the South can no longer be viewed in black and white terms.

especially if the subject is race Joel Williamson s essay challenges fellow historians to broaden their purview by getting acquainted with Gone with the Wind Elvis Presley and other phenomena of southern culture s Linda Wagner Martin discusses the innovative ways in which contemporary southern writers such as Charles Frazier take on traditional southern concerns and shows us how place becomes space for Alice Walker Barbara Kingsolver Cormac McCarthy and other southern born writers whose works are often set outside the geographical South Thadious Davis looks at the youngsters of southern poetry fiction and drama revealing how their work reflects a racially and ethnically mixed digitized and otherwise reconfigured South In the writings of Shay Youngblood Randall Kenan Donna Tartt Mona Lisa Salloy and others one can see the collapsing of distinctions between the literary and the popular and a greater comfort with social fluidity and mobility The concluding essay by Edward Ayers set in 2076 offers a witty glimpse of things perhaps to come Through a series of short dispatches from a sixteen year old narrator of Scottish Ghanaian Honduran Korean Cherokee descent Ayers transports us to the Consolidated South that counts Incarceration Incorporated among its largest employers As these writings signal new depths and directions in southern historical and literary studies they compose a witty and erudite album of snapshots revealing a region on the verge of big changes     Subject Access to Scandinavian Fiction Literature Nordic Council Of Ministers Staff,1997 On cover Culture In English and Danish     *Catalogue of English Prose Fiction & Juvenile Books ...
