*Normans* Terry Deary, 2001 **Memory and Myths of the Norman Conquest** Siobhan Brownlie, 2013 The Norman Conquest is one of the most significant events in British history but how is it actually remembered and perceived today This book offers a study of contemporary British memory of the Norman Conquest focussing on shared knowledge attitudes and beliefs A major source of evidence for its findings are references to the Norman Conquest in contemporary British newspaper articles 807 articles containing references to the Conquest were collected from ten British newspapers covering a recent three year period A second important source of information is a quantitative survey for which a representative sample of 2000 UK residents was questioned These sources are supplemented by the study of contemporary books and film material as well as medieval chronicles for comparative purposes and the author also draws on cultural theory to highlight the characteristics and functions of distant memory and myth The investigation culminates in considering the potential impact of memory of the Norman Conquest in Britain today Publisher's website *Stormin' Norman* Jack Anderson, Dale Van

permutations of its various registers including satire parody irony camp wit jokes and farce the author offers fresh and amusing insight into comic medievalism as a vehicle for critical commentary on the present as well as the past and shows that for as long as there has been medievalism people have laughed at and with the middle ages Louise D Arcens is Associate Professor in English Literatures at the University of Wollongong
