Stormy Weather A B17:

Stormy Weather a B-17 G. P. Birdsong, Jr.,1988-08-01 *Almost Forgotten* Joseph K. Oyler,2011-01-20 At least 107 men from the Bridgeville and South Fayette area perished while serving our country in the military as early as the Civil War and as recently as the Vietnam War The book documents who they were where they lived who their parents and siblings were the conflict in which they served their branch of service when and where they perished and where they are buried or memorialized However it goes beyond these details by relating anecdotes and human interest stories concerning the casualties their friends and their families The author shares his memories of the men who perished the conflicts in which they served and his family's connection to the various conflicts Hundreds of men and women who contributed information to the author are acknowledged The book unveils many interesting findings For example Alexander Asti perished with the Five Sullivan Brothers when the Japanese sank the light cruiser USS Juneau at Guadalcanal during World War 2 Most importantly it resurrects the memory of these men who sacrificed their lives to preserve our liberty and freedom **On the Trail of the Legions** Raymond Selkirk,1995 *Catalogue* Arctic Institute of North America. Library,1968 *Folk Traditions of the Arab World* Hasan M. El-Shamy,1995 *The Star in the Window* Louis C. Langone,2011-06-21 When a service banner adorned with stars was displayed in a home's window during World War II it meant a family member was involved in the war Some of the soldiers never returned but those who did come home carried memories and war stories In *The Star in the Window* author Louis C Langone tells the stories of more than seventy five WWII veterans who lived in Waterville and Central New York Langone personally interviewed and listened to more than 100 men and women telling their wartime stories from bombing missions over Europe to the island hopping campaigns of the Pacific to suffering as prisoners of war The narratives are supplemented with material from books periodicals the Internet press releases unit histories and letters providing a mix of memories and facts Photographs and community honor rolls are also included *The Star in the Window* not only preserves special WWII memories but also gives insight into the hardships endured and sacrifices made by the veterans of the Central New York area It provides an opportunity to experience history through the eyes and ears of veterans from the various military branches of service revealing shocking and obscure incidents of the war **Combat Chronology: 1941-1945** , *A History Of The B-24 Liberator in Over 300 Photographs, Stories And Analysis: Including The U.S. Army Air Forces in World War II: Combat Chronology 1941 - 1945 - American Air Power in WWII* ,2015-07-28 PREFACE The chronology is concerned primarily with operations of the US Army Air Forces and its combat units between December 7 1941 and September 15 1945 It is designed as a companion reference to the seven volume history of The Army Air Forces in World War II edited by Wesley Frank Craven and James Lea Cate The research was a cooperative endeavor carried out in the United States Air Force historical archives by the Research Branch of the Albert F Simpson Historical Research Center Such an effort has demanded certain changes in established historical methodology as well as some arbitrary rules for

presentation of the results After International and US events entries are arranged geographically They begin with events at Army Air Forces Headquarters in Washington then proceed eastward around the world using the location of the headquarters of the numbered air forces as the basis for placement For this reason entries concerning the Ninth Air Force while operating in the Middle East follow Twelfth Air Force When that headquarters moves to England in October 1943 the entries are shifted to follow Eighth Air Force The entries end with those numbered air forces which remained in the Zone of the Interior as well as units originally activated in the ZI then designated for later movement overseas such as Ninth and Tenth Air Forces The ZI entries do not include Eighth and Twentieth Air Forces which were established in the ZI with the original intent of placing them in those geographical locations with which they became historically identified For these two units original actions are shown either under AAF or in their intended geographic area of location All times and dates used are those of the area under discussion The entry 1 2 Jun indicates that an event occurred during the night between the two given dates while 1 2 Jun indicates an action over a period of time In dealing with people again arbitrary decisions were implemented For military men below the general officer or equivalent level full grade and name were used For general officers and those of equal grade in other US and foreign services the complete rank both that at the time first mentioned and the highest rank held prior to the end of the war and name will be found in the index Only an abbreviated rank e g Gen or Adm and last name are used in the text The exception is where two general officers had the same last name in such cases the first name is also included Similarly for civilian leaders only the last name is used full name and title are given in the index Location of all towns islands etc is also made in the index In all cases attempts were made to cite place names in use by the native population at the time of or immediately before the war No names imposed by a conqueror are used For example Pylos Bay not Navarino Bay is used Further as appropriate native geographic terms are used Shima for island in Japanese island groups See for lake in Germany However two exceptions were made In cases in which the place became infamous because of the actions of the conquering power that name is preferred for example Auschwitz would be used rather than the Polish name of Oswiecim Also in larger international cities such as Roma Koln and Wien the anglicized name is used Where a village or hamlet was difficult to locate or where there were several such places with the same name in a general area the coordinates are given in the index In some cases with no extant navigational aids of the attacking force the best possible guess was made based upon all available evidence In other instances such as the bridge at Hay ti attacked so often by Tenth Air Force a logical guess could not be made In these cases a question mark is placed in brackets after the index entry Accent marks such as umlauts were omitted
