McMahon,Andrew Hall Wedeman,2006 In this volume several leading foreign policy and international relations experts consider the long term prospects and implications of US foreign policy as it has been shaped and practiced during the presidency of George W Bush The essays in this collection based on the research of well respected scholars such as Ole Holsti Loch Johnson John Ruggie Jack Donnelly Robert Leiber Karen Mingst and Edward Luck offer a clear assessment while US resources are substantial Washington s ability to shape outcomes in the world is challenged by its expansive foreign policy goals its exceptionalist approach to international relations serious questions about the limits of its hard power resources as well as fundamental changes in the global system Illustrating one of the central ironies of the contemporary situation in foreign affairs and international relations that at the very time of the unipolar moment the world has become globalized to such an extent that the unilateralism of the Bush Administration leads as much to resistance as it does to coercion compliance and cooperation

U.S. Policy Options for Iraq Olga Oliker, 2007 Iraq is the most pressing national security issue facing the United States today This book evaluates the costs and benefits of five alternative strategies the United States could pursue in Iraq The authors argue that as long as the United States remains in Iraq policy actions must focus on improving the security of Iraq's population by reducing violence They offer recommendations for ways in which U S political security and economic policies in Iraq could be better geared to support this goal though they emphasize the challenges inherent in this endeavor Specific recommendations focus on embedding and vetting efforts for both forces and government structures and on targeting economic assistance more effectively The authors also suggest policies that might be implemented if violence subsides but that should not be undertaken unless and until it does The book concludes with a discussion of next steps if the United States decides to withdraw from Iraq arguing that the United States needs to prepare now to mitigate the effects of failure
