The Best Of Modern Worship:

The Intellectual repository for the New Church. (July/Sept. 1817). [Continued as] The Intellectual repository and New Jerusalem magazine. Enlarged ser., vol.1-28 New Church gen. confer, *Starting a New Church* Ralph Moore, 2002-09-06 According to the author perhaps our greatest responsibility is to evangelize our own generation Yet established churches are not able to do that In fact rising generations of Americans live in ignorance of Jesus Christ and have no moral absolutes Aggressive church planting the author believes is the answer to the problem because new churches focus on the needs of each new generation and present biblical truth in the cultural context that best reaches those people The objectives of this book are to lay down the challenge to consider becoming a church planter while at the same time screen out wishful thinking and focus on the practical challenges of church planting This authoritative and edgy message is the next thing in evangelism *Building the Modern Church* Robert Proctor, 2016-05-23 Fifty years after the Second Vatican Council architectural historian Robert Proctor examines the transformations in British Roman Catholic church architecture that took place in the two decades surrounding this crucial event Inspired by new thinking in theology and changing practices of worship and by a growing acceptance of modern art and architecture architects designed radical new forms of church building in a campaign of new buildings for new urban contexts A focussed study of mid twentieth century church architecture *Building the Modern Church* considers how architects and clergy constructed the image and reality of the Church as an institution through its buildings The author examines changing conceptions of tradition and modernity and the development of a modern church architecture that drew from the ideas of the liturgical movement The role of Catholic clergy as patrons of modern architecture and art and the changing attitudes of the Church and its architects to modernity are examined explaining how different strands of post war architecture were adopted in the field of ecclesiastical buildings The church building s social role in defining communities through rituals and symbols is also considered together with the relationships between churches and modernist urban planning in new towns and suburbs Case studies analysed in detail include significant buildings and architects that have remained little known until now Based on meticulous historical research in primary sources theoretically informed fully referenced and thoroughly illustrated this book will be of interest to anyone concerned with the church architecture art and theology of this period *Liturgy Or Book of Worship, for the Use of the New Church Signified by the New Jerusalem* ,1872 *Christian Literature and Review of the Churches* ,1894
