The Labyrinths of Information ,2004 *The Labyrinths of Information* Claudio Ciborra,2007 *The Way of the Labyrinth* Helen Curry,2000-10-01 The first time Helen Curry walked a labyrinth she was moved to tears and then was filled with peace and possibilities Here she shares her years of experience with labyrinth meditation and shows how others can find serenity and guidance by adopting this increasingly popular practice Unlike mazes which force choices and can create fear and confusion labyrinths are designed to embrace and guide individuals through a calming meditative walk on a single circular path The Way of the Labyrinth includes meditations prayers questions for enhancing labyrinth walks guidelines for ceremonies instructions for finger meditations and extensive resources This enchanting practical and exquisitely packaged guide helps both novice and experienced readers enjoy the benefits of labyrinth meditation from problem solving to stress reduction to personal transformation Includes a foreword by Jean Houston the renowned author and leader in the field of humanistic psychology who is considered the grandmother of the current labyrinth revival **Learning with the Labyrinth** Jan Sellers,Bernard Moss,2016-04-15 This book discusses the theory and practice of labyrinth creation and use From issues of design and cost to how a labyrinth may be used as a university wide resource and also be used for outreach to the wider community it covers labyrinth use Within disciplines such as initiatives to deepen reflection and explore contemplative approaches to learning In wider university contexts such as counselling chaplaincy learning and educational development widening participation and student transition Across the whole university and reaching out to the wider community of which the university is a part from the labyrinth as a conference resource as well as topic to festival contributions Learning with the Labyrinth seeks to illustrate inspire and share ideas that can be taken further by the reader **The Labyrinths of Information** Claudio Ciborra,2002 This work takes an unusual approach to the use of information and communication technologies The author uses metaphors such as bricolage and gestell to place a concern for human existence and our working lives at the centre of the study of ICTs and their use **Mazes and Labyrinths of the World** Janet Bord,1976 From delivery to nursing diaper duty to bath time this book walks siblings and their parents through basics of bringing a new baby home Also included is a note to parents with tips on how to prepare the older child for the new baby and what to expect **Advances in Contemplative Science** Javier Garcia-Campayo,Roberto Aristegui,Jesus Montero-Marin,2025-02-03 Over the last twenty years a great amount of research has been conducted in the field of Contemplative Science CS considered a crossroads between contemplative spiritual traditions and neuroscience This is a relatively heterogeneous discipline that includes quite different techniques mindfulness compassion body mind techniques etc distinct approaches from secular to religious traditions Buddhism Vedanta shamanism monotheistic religions etc and different sets of terminology that frequently require clarification One of the more challenging features of CS is its methodology given the difficulty involved in assessing its introspection dimension The consequence of all these aspects is that CS has become one of the newest and most

interesting fields of research in psychology **Labyrinth and Piano Key Weirs** Sébastien Erpicum, Frédéric Laugier, Jean-Louis Boillat, Michel Piroton, Bernard Reverchon, Anton J. Schleiss, 2011-05-10 Labyrinth spillways are almost as old as dam engineering In spite of the fact that they appear as a very good technical economical compromise only 0.1% of large dams are equipped with such weirs The main reason for this is that traditional labyrinth weirs usually cannot be installed on top of concrete gravity dams as they require a large foundation *New Age*, 2000 **Circular of Information** USA.
