## Skimming The Cream:

*Radical Farm* Abey Rae Scaglione, 2025-08-29 As a species we have perhaps never been so confused about what to eat. The ethical, environmental, and health-related impacts of our diets are hot topics of discussion with plant-based lifestyles often touted as the best way forward. But what if the opposite is true? What if animal agriculture is not only beneficial but necessary to ensure the health of our soil, ourselves, and our food system? Part memoir, part homesteading guide, *Radical Farm* argues this is the case. Drawing on a wealth of research and hands-on experience, author and farmer-rancher Abey Rae Scaglione recounts how her and her family make their living and their life raising animals and growing crops on a heritage farm on Salt Spring Island. Along the way, she argues compellingly for the need for a return to local regenerative farming practices, setting the record straight on common arguments against meat eating and highlighting the need for animal agriculture because of animals' vital relationship with the soil and the plant foods grown from it. The best way to support animal welfare, she argues, is not by opting out of animal agriculture altogether but by supporting farms demonstrating good management. *Radical Farm* is also a guide to the basics of sustainably raising animals and growing plants. With information on cattle, sheep, chickens, turkeys, and gardening, this book also includes instructions on how to use and preserve food. With information on canning, fermenting, and cheesemaking, as well as plenty of real food recipes, this book is for anyone wanting to take back control of the food they eat. Informative and thoughtful, it is sure to make a welcome addition to the bookshelves of anyone interested in self-sufficiency, sustainability, and our modern food system. *New York Produce Review and American Creamery*, 1900

As a white woman of means living in segregated Georgia in the first half of the twentieth century, Lillian Smith (1897-1966) surprised readers with stories of mixed-race love affairs, mob attacks on outsiders, and young female campers exploring their sexuality. *Critical Essays on the Writings of Lillian Smith* tracks the evolution of Smith from a young girls' camp director into a courageous artist who could examine controversial topics frankly and critically while preserving a lifelong connection to the north Georgia mountains and people. She did not pull punches in her portrayals of the South and refused to obsess on an idealized past. Smith took seriously the artist's role as she saw it to lead readers toward a better understanding of themselves and a more fulfilling existence. Smith's perspective cut straight to the core of the neurotic behaviors she observed and

participated in To draw readers into her exploration of those behaviors she created compelling stories using carefully chosen literary techniques in powerful ways With words as her medium she drew maps of her fictionalized southern places revealing literally and metaphorically society's disfunctions Through carefully crafted points of view she offers readers an intimate glimpse into her own childhood as well as the psychological traumas that all southerners experience and help to perpetuate Comprised of seven essays by contemporary Smith scholars this volume explores these fascinating aspects of Smith's writings in an attempt to fill in the picture of this charismatic figure whose work not only was influential in her time but also is profoundly relevant to ours *Report of the Secretary Michigan. Torquati, A. Marchini, 2023-08-07 This book offers a wide selection of contributions presented at the LV Conference of Italian society of agricultural economics SIDEA Studies Agricultural economists and sociologists reflect on the change processes that are affecting the agri food systems and take a small step towards an improved understanding of the complexity of green metamorphosis and the interplay between agriculture food and ecology The key message is that a green metamorphosis has been taking place increasingly involving more and more aspects and dimensions from environment to consumers preferences from social value to human health from profitability to governance issues Furthermore this book tries to shed a light on the complexity of the new agricultural paradigm which involves technology as well as traditions trying to understand the ongoing

metamorphosis taking into account that nothing is created nothing is destroyed everything is transformed This volume intends to guide the new generations of agricultural economists who have the hard task of leading the green metamorphosis across the four main axes of sustainability economic socio cultural environmental and political     **Dairying** Henry Hoshel Dean,1932     **Annual Report of the Secretary of the State Board of Agriculture of the State of Michigan and ...**
