Composing the Citizen Jann Pasler,2009-07-06 In a book that challenges modernist ideas about the value and role of music in Western society Composing the Citizen demonstrates how music can help forge a nation Deftly exploring the history of Third Republic France Jann Pasler shows how French people from all classes and political persuasions looked to music to revitalize the country after the turbulent crises of 1871 Embraced not as a luxury but

for its public utility music became an object of public policy as integral to modern life as power and water a way to teach critical judgment and inspire national pride It helped people to forget the past voice conflicting aspirations and imagine a shared future Based on a dazzling survey of archival material Pasler s rich interdisciplinary work looks beyond elites and the histories their agendas have dominated to open new windows onto the musical tastes and practices of amateurs as well as professionals A fascinating history of the period emerges one rooted in political realities and the productive tensions between the political and the aesthetic Highly evocative and deeply humanistic *Composing the Citizen* ignites broad debates about music s role in democracy and its meaning in our lives **NATO's Democratic Retrenchment** Henrik B.L.

Larsen,2019-07-02 Exploring NATO s post Cold War determination to support democracy abroad this book addresses the alliance s adaptation to the new illiberal backlashes in Eastern Europe the Western Balkans and Afghanistan after the alleged return of history The book engages the question of what has driven NATO to pursue democratisation in face of the significant region specific challenges and what can explain policy expansion or retrenchment over time Explaining NATO s adaptation from the perspective of power dynamics that push for international change and historical experience that informs grand strategy allows wider inferences not only about democratisation as a foreign policy strategy but also about the nature of the transatlantic alliance and its relations with a mostly illiberal environment Larsen offers a theoretical conception of NATO as a patchwork of one hegemonic and several great power interests that converge or diverge in the formulation of common policy as opposed to NATO as a community of universal values This volume will appeal to researchers of transatlantic relations NATO s functional and geographical expansion hegemony and great power politics democracy promotion lessons of the past Neoclassical Realism alliance theory and the crisis of the liberal world order **DVD & Video Guide 2005** Mick
