Selected Guidelines for the Management of Records and Archives Peter Walne, RAMP (Program), UNISIST (Program), Unesco. General Information Programme, 1990 The Management of College and University Archives William J. Maher, 1992-01-01 New in paperback

Maher introduces the basic elements required for an archival program to meet the documentary needs of a college or university. Both archivists and their administrative superiors can obtain a thorough understanding of archival work and its importance to their institution. Beginning archivists, experienced academic archivists, archivists outside academe, and related professionals will all benefit from this book, which assesses the current status and conditions of academic archives, articulates the basic principles that should determine the operating goals for academic archives, and synthesizes external professional standards and techniques with a systematic overview of what is practical for academic archivists. Cloth version previously published in 1992.

Managing Archives Caroline Williams, 2006-03-31. Managing Archives provides a practical guide to archives management. It has three main target audiences: those who have been tasked by their organization to manage its archives but who have no prior training; those who are starting out as professionals or para-professionals in a record-keeping environment and need basic guidance; and students who are currently studying for a professional qualification. Basic guidance is supplemented by comprehensive references to professional literature, standards, web sites, etc., to enable the reader to further their studies at their own pace. The text includes a range of optional activities that enable the reader to translate principles into practice and feel greater ownership with the guidance. There is no similar book on the market. There is known demand both from practitioners and students. The book offers guidance in the implementation of archival processes in a range of institutional contexts and enables a universal application.

Archives and Recordkeeping Caroline Brown, 2013-11-23. This groundbreaking text demystifies archival and recordkeeping theory and its role in modern-day practice. The book's great strength is in articulating some of the core principles and issues that shape the discipline and the impact and relevance they have for the 21st-century professional. Using an accessible approach, it outlines and explores key literature and concepts and the role they can play in practice. Leading international thinkers and practitioners from the archives and records management world: Jeannette Bastian, Alan Bell, Anne Gilliland, Rachel Hardiman, Eric Ketelaar, Jennifer Meehan, and Caroline Williams, consider the concepts and ideas behind the practicalities of archives and records management to draw out their importance and relevance. Key topics covered include: Concepts, roles, and definitions of records and archives; Archival appraisal; Arrangement and description; Ethics for archivists and records managers; Archives, memories, and identities; The impact of philosophy on archives and records management; Does technological change marginalize recordkeeping theory? Readership: This is essential reading for students and educators in archives and recordkeeping and invaluable as a guide for practitioners who want to better understand and inform their day-to-day work. It is also a useful guide across related disciplines in the information sciences and humanities.
