Ecological Survey Of Kenya Narok District:

An Ecological Survey of the Narok District of Kenya Masailand, 1961-1965 ,1966 **An Ecological Survey of the Narok District of Kenya Masailand** P. E. Glover,1967 *Serengeti II* A. R. E. Sinclair,Peter Arcese,1995-08 Serengeti II Dynamics Management and Conservation of an Ecosystem brings together twenty years of research by leading scientists to provide the most thorough understanding to date of the spectacular Serengeti Mara ecosystem in East Africa home to one of the largest and most diverse populations of animals in the world Building on the groundwork laid by the classic Serengeti Dynamics of an Ecosystem published in 1979 by the University of Chicago Press this new book integrates studies of the ecosystem at every level from the plants at the bottom of the visible food chain to the many species of herbivores and predators to the system as a whole Drawing on new data from many long term studies and from more recent research initiatives and applying new theory and computer technology the contributors examine the large scale processes that have produced the Serengeti's extraordinary biological diversity as well as the interactions among species and between plants and animals and their environment They also introduce computer modeling as a tool for exploring these interactions employing this new technology to test and anticipate the effects of social political and economic changes on the entire ecosystem and on particular species and so to shape future conservation and management strategies Natural Grasslands R.T.

Coupland,1993-02-01 This volume is concerned with those parts of the earth's surface where semiarid to subhumid climate determines that the potential vegetation is characterized by a more or less continuous layer of grasses and other associated herbs These grasslands have been modified to a very considerable degree by the activities of man and his domesticated animals The authors of the various chapters have evaluated the effect of these stresses in modifying ecosystem structure and activities of organisms The book provides an intensively referenced and indexed synthesis and review of knowledge concerning the natural grasslands of the world in as uniform a style as possible Because of its length it is published in two parts The first part deals with the grasslands of the Western Hemisphere and the Eastern Hemisphere and the resum compose this second volume Rangeland Ecology and Resource Development in Eastern Africa Dennis J. Foxcroft,Petr Pyšek,David M. Richardson,Piero Genovesi,2013-11-27 This book is the first comprehensive global review of all aspects of alien plant invasions in protected areas It provides insights into advances in invasion ecology emanating from work in protected areas and the link to locally relevant management support for protected areas The book provides in depth case

studies illuminating interesting and insightful knowledge that can be shared across the global protected area network The book includes the collective understanding of 80 ecologists and managers to extract as much information as possible that will support the long term management of protected areas and the biodiversity and associated ecosystem services they maintain This outstanding volume draws together pretty much all that can be said on this topic ranging from the science through policy to practical action Dr Simon N Stuart IUCN Species Survival Commission UK This important and timely volume addresses two of the most serious problems affecting biodiversity conservation today assessing the extent to which protected areas are impacted by biological invasions and the complex problems of managing these impacts Written by leading specialists it provides a comprehensive overview of the issues and gives detailed examples drawn from protected areas across the world Professor Vernon H Heywood School of Biological Sciences University of Reading UK
