
3.22.7 *Quality*

If there is any question as to the quality of the fuel or fueling equipment being used, the flight crewmember will request that a sample be taken from the final fuel filter of the refueler or from the delivery nozzle being used to refuel the aircraft prior to accepting fuel into the aircraft. Fuel samples should have a clear and bright appearance and have no evidence of free or suspended (cloudy or hazy) water and have no visible particulate matter (e.g., dirt, rust). Fuel that is not clear, clean and free from water should not be accepted.

3.23 Ground Power Units

When a ground power unit (GPU) is supplying power to aircraft systems, one person qualified to operate the GPU must remain in attendance in the immediate vicinity of the aircraft. The immediate vicinity of the aircraft is defined as sufficiently close in proximity to enable the person to take immediate corrective action in the event of an emergency involving the aircraft or the power unit.

3.24 Emergency Equipment

3.24.1 *Cabin Emergency Equipment*

Emergency equipment meeting the requirements of FAR 91.513 and passenger briefing cards are carried on Company aircraft. Each crewmember shall be familiar with the location, condition, inspection status (per attached inspection tag or label), and operation of the emergency equipment carried on board the aircraft.

3.24.2 *Survival Equipment Requirements*

No flight will be conducted over water that is more than thirty (30) minutes' flying time, or one hundred (100) nm from the nearest shoreline, unless the equipment specified in FAR 91.509 is carried on board the aircraft.

The PIC will ensure that the proper amount and type of equipment is on board prior to departure and that each crewmember is aware of the operation and location of all survival equipment.

3.24.3 *Use of Floats*

Helicopters used for over-water flight operations, including departures and approaches, shall be equipped with emergency aircraft flotation devices. These devices must be functional and armed during over-water departures and approaches.
