How, 2016-06-30 This book

demonstrates that classical sociology is essential to cutting edge debates in the contemporary social sciences It has become fashionable to play down the importance of the classic text in sociology and critique the ideas of Weber Marx and Durkheim as ideologically outdated The author mounts a strong challenge to this view criticising such notions as de traditionalization structuration and postmodernism emphasizing instead the relevance of habit re traditionalization and social integration across time Arguing that sociology has eliminated the importance of the past history and tradition in favour of the transience of the present he revisits the Habermas Gadamer debate to argue that tradition is the ground of the classic and the classic something that must prove itself anew in subsequent situations He uses the work of Durkheim Simmel and Weber to illustrate this process Making a distinction between classic and canon which parallels that between agency and structure he allows the reader to appreciate the separate value of both This major contribution to the field is essential reading for scholars and students of sociology and social theory      **Classical and Contemporary Sociological Theory** Scott Appelrouth, Laura

Desfor Edles, 2008 A unique hybrid of text and readings this book combines the major writings of sociology s core classical and contemporary theorists with an historical as well as theoretical framework for understanding them Laura Desfor Edles and Scott A Appelrouth provide not just a biographical and theoretical summary of each theorist reading but an overarching scaffolding which students can use to examine compare and contrast each theorists major themes and concepts No other theory text combines such student friendly explanation and analysis with original theoretical works Key features include Pedagogical devices and visual aids charts figures and photographs to help summarize key concepts illuminate complex ideas and provoke student interest Chapters on well known figures such as Marx Weber Durkheim Parsons and Foucault as well as an in depth discussion of lesser known voices such as Charlotte Perkins Gilman WEB Du Bois and Leslie Sklair Photos of not
