*Handbook of the Sociology of Mental Health* Carol S. Aneshensel, Jo C. Phelan, Alex Bierman, 2012-07-16 This second edition of the Handbook of the Sociology of Mental Health features theory driven reviews of recent research with a comprehensive approach to the investigation of the ways in which society shapes the mental health of its members and the lives of those who have been diagnosed as having a mental illness. The award winning Handbook is distinctive in its focus on how the organization and functioning of society influences the occurrence of mental disorder and its consequences. A core issue that runs throughout the text concerns the differential distribution of mental illness across various social strata defined by status characteristics such as gender, race, ethnicity, socioeconomic status and age. The contributions to this volume shed light on the social, cultural and economic factors that explain why some social groups have an elevated risk of disorder. They also address the social repercussions of mental disorder for individuals including stigmatization within the larger society and for their families and social networks. The second edition of this seminal volume includes substantial updates to previous chapters as well as seven new chapters on The Individual's Experience of Mental Illness, The Medicalization of Mental Illness, Age, Aging and Mental Health, Religion and Mental Health, Neighborhoods and Mental Health, Mental Health and the Law, and Public Beliefs about Mental Illness.

**Social Inequality in the World of the Text** Saul M. Olyan, 2011-09-14 This volume consists of fifteen of the author's essays, including two that have never been published before. The essays date to the last decade and a half and all reflect, in some manner, the author's ongoing interest in literary operations of classification and their social implications, particularly the production of distinctions which create social inequality in the world of the text and have the potential to generate hierarchical social relationships in contexts where biblical texts might have had an impact on real people. In these essays, the author explores themes such as gender, sexuality, purity and pollution, sanctification, death and afterlife, foreignness and disability, with particular attention to the roles distinctions such as honored, shamed, feminine, masculine, mourning, rejoicing, unclean, clean, alien, native, play in creating and perpetuating social differences in texts. Rites of status change such as circumcision, shaving, purification, burial or disinterment, sanctification and profanation of holiness are a focus of interest in a number of these essays, reflecting the author's on-going interest in the textual representation of ritual. Most of the essays examine texts in their historical setting.

but several also engage the early history of the interpretation of biblical texts including the phenomenon of inner biblical exegesis The essays are divided into five sections Rites and Social Status Gender and Sexuality Disability Holiness Purity the Alien Death Burial Afterlife and their Metaphorical Uses The author introduces each of the sections contextualizing each essay in his larger scholarly project reflecting on its development and reception and in some cases responding to his critics
