26th International Conference on Software Engineering ,2004 *ICSE 2004* ,2004 The Transfer and Diffusion of Information Technology for Organizational Resilience Brian Donnellan,Tor Larsen,Linda Levine,Janice DeGross,2006-05-17 This volume contains the edited proceedings of the Working Conference on the Transfer and Diffusion of IT for Organizational Resilience sponsored by the International Federation for Information Processing IFIP Working Group 8.6 Transfer and Diffusion of Information Technology and held in Galway Ireland in June of 2006 The material contained in this book represents current thinking on the topic of resilience by academics and leading practitioners **Handbook of Software Engineering** Sungdeok Cha,Richard N. Taylor,Kyochul Kang,2019-02-11 This handbook provides a unique and in depth survey of the current state of the art in software engineering covering its major topics the conceptual genealogy of each subfield and discussing future research directions Subjects include foundational areas of software engineering e.g software processes requirements engineering software architecture software testing formal methods software maintenance as well as emerging areas e.g self adaptive systems software engineering in the cloud coordination technology Each chapter includes an introduction to central concepts and principles a guided tour of seminal papers and key contributions and promising future research directions The authors of the individual chapters are all acknowledged experts in their field and include many who have pioneered the techniques and technologies discussed Readers will find an authoritative and concise review of each subject and will also learn how software engineering technologies have evolved and are likely to develop in the years to come This book will be especially useful for researchers who are new to software engineering and for practitioners seeking to enhance their skills and knowledge **Product-Focused Software Process Improvement** Frank Bomarius,Markku Oivo,Päivi Järing,Pekka Abrahamsson,2009-06-18 On behalf of the PROFES Organizing Committee we are proud to present the proceedings of the 10 International Conference on Product Focused Software Process Improvement PROFES 2009 held in Oulu Finland Since the first conference in 1999 the conference has established its place in the software engineering community as a respected conference that brings together participants from academia and industry The roots of PROFES are in professional software process improvement motivated by product and service quality needs The conference addresses both the solutions found in practice as well as relevant research results from academia To ensure that PROFES retains its high quality and focus on the most relevant research issues the conference has actively maintained close collaboration with industry and subsequently widened its scope to the research areas of collaborative and agile software development A special focus for 2009 was placed on software business to bridge research and practice in the economics of software engineering This enabled us to cover software development in a more comprehensive manner and tackle one of the most important current challenges identified by the software industry and software research community namely the shift of focus from products to services The current global economic downturn emphasizes the need for new methods and solutions for

fast and business oriented development of products and services in a globally distributed environment Engineering Interactive Systems Jan Gulliksen, Morten Borup Harning, Philippe Palanque, Gerrit C. van der Veer, Janet Wesson, 2008-12-23

Engineering Interactive Systems 2007 is an IFIP working conference that brings together researchers and practitioners interested in strengthening the scientific foundations of user interface design examining the relationship between software engineering SE and human computer interaction HCI and on how user centered design UCD could be strengthened as an essential part of the software engineering process Engineering Interactive Systems 2007 was created by merging three conferences HCSE 2007 Human Centered Software Engineering held for the first time The HCSE Working Conference is a multidisciplinary conference entirely dedicated to advancing the basic science and theory of human centered software systems engineering It is organized by IFIP WG 13.2 on Methodologies for User Centered Systems Design EHCI 2007 Engineering Human Computer Interaction was held for the tenth time EHCI aims to investigate the nature concepts and construction of user interfaces for software systems It is organized by IFIP WG 13.4.2.7 on User Interface Engineering DSV-IS 2007 Design Specification and Verification of Interactive Systems was held for the 13th time DSV-IS provides a forum where researchers working on model based techniques and tools for the design and development of interactive systems can come together with practitioners and with those working on HCI models and theories *New Studies in Global IT and Business Services Outsourcing* Julia Kotlarsky, Leslie P. Willcocks, Ilan Oshri, 2011-10-09 This book contains 11 carefully revised and selected papers from the 5th Workshop on Global Sourcing held in Courchevel France March 14-17 2011 They have been gleaned from a vast empirical base brought together by leading researchers in information systems strategic management and operations This volume is intended for use by students academics and practitioners interested in the outsourcing and offshoring of information technology and business processes It offers a review of the key topics in outsourcing and offshoring populated with practical frameworks that serve as a tool kit for students and managers The topics discussed combine theoretical and practical insights and they are extensively illustrated by case studies from client and vendor organizations Last but not least the book examines current and future trends in outsourcing and offshoring paying particular attention to how innovation can be realized in global or outsourced software development environments *Product-Focused Software Process Improvement* Oscar Dieste, Andreas Jedlitschka, Natalia Juristo, 2012-05-31 This book constitutes the refereed proceedings of the 13 International Conference on Product Focused Software Process Improvement PROFES 2012 held in Madrid Spain in June 2012 The 21 revised full papers presented together with 3 short papers and 4 workshop and tutorial papers were carefully reviewed and selected from 49 submissions The papers are organized in topical sections on process focused software process improvement open source agile and lean practices product and process measurements and estimation distributed and global software development quality assessment and empirical studies **Product-Focused Software Process Improvement** Andreas Jedlitschka, Outi Salo, 2008-06-16 This book constitutes the refereed proceedings
