Grand Opera Outside Paris Jens Hesselager, 2017-12-14 Nineteenth century French grand opera was a musical and cultural phenomenon with an important and widespread transnational presence in Europe Primary attention in the major studies of the genre has so far been on the Parisian context for which the majority of the works were originally written In contrast this volume takes account of a larger geographical and historical context bringing the Europe wide impact of the genre into focus The book presents case studies including analyses of grand opera in small town Germany and Switzerland grand operas adapted for Scandinavian capitals a cockney audience in London and a court audience in Weimar and Portuguese and Russian grand operas after the French model Its overarching aim is to reveal how grand operas were used performed transformed enjoyed and criticised emulated and parodied and how they became part of musical cultural and political life in various European settings The picture that emerges is complex and diversified yet it also testifies to the interrelated processes of cultural and political change as bourgeois audiences at varying paces and with local variations increased their influence and as discourses on language nation and nationalism influenced public debates in powerful ways

Music Papers John Beckwith, 1997 What is music where does it come from and what does it mean If music is in the background and no one listens to it does it still exist Why do composers write music and how do they learn their profession What about Canadian music a regional dialect of this universal language How has it been created inside the country how well is it understood abroad Music papers are reflections from a life of composing and teaching These articles talks and reviews whether intended originally for general or professional audiences communicate a passion for music rooted in a North American culture and place informed by long and loving familiarity with masterpieces from elsewhere Also included are alternative versions of the early life of Glenn Gould proofs of the existence of musical life in Toronto and some questions still unanswered **Performing Arts in Changing Societies** Randi Margrete Selvik, Svein Gladsø, Anne Margrete

Fiskvik, 2020-05-07 Performing Arts in Changing Societies is a detailed exploration of genre development within the fields of dance theatre and opera in selected European countries during the decades before and after 1800 An introductory chapter outlines the theoretical and ideological background of genre thinking in Europe starting from antiquity A further fourteen chapters cover the performing genres as they developed in England France Germany and Austria and follow the dissemination and adaptation of the corresponding genres in minor and major cities in the Nordic countries With a strong emphasis on the role that pragmatic and contextual factors had in defining genres the book examines such subjects as the dancing masters in Christiania Oslo circa 1800 the repertory and travels of an itinerant acrobat and his wife in Norway in the 1760s and the influence of Enlightenment ideas on bourgeois drama in Denmark Including detailed analyses in the light of

material political and social factors this is a valuable resource for scholars and researchers in the fields of musicology opera studies and theatre and performance studies Harbingers of Twentieth-Century Neo-classicism Finn Egeland Hansen,2019-06-03 This book proposes a new theory about the neo classical style in music The Danish emeritus professor Finn Egeland Hansen has chosen three different composers the French Camille Saint Saens and Charles Gounod and the Danish Niels W Gade to discuss his thesis that the main classical romantic current of the 19th century in fact represents two sub currents One sub current focusing on the romantic aspects the other focusing on the classical aspects of its musical style In close readings of works by these three composers Hansen demonstrates how in different aspects they were harbingers of the neo classical style a style that is usually exemplified through later composers like Igor Stravinsky Paul Hindemith and the members of the French group Les Six Hansen labels these harbingers style as retro classicism Finn Egeland Hansen s doctoral dissertation was on *The Grammar of Gregorian Tonality* 1979 and his most recent book is *Layers of Musical Meaning* 2006 Since 1990 he has been Chairman of the Foundation for the Publication of the Works of Niels W Gade

Storytelling in Jazz and Musicality in Theatre Sven Bjerstedt,2021-05-25 Art forms tend to mirror themselves in each other In order to understand literature and fine arts better we often turn to music speaking of the tone in a book and of the rhythm in a painting In attempts to understand music better we turn instead to the narrative arts speaking of the story of a musical piece This book focuses on two examples of such conceptual mirror reflexivity narrativity in jazz music and musicality in spoken theatre These intermedial metaphors are shown to be significant to the practice and reflection of performing artists through their ability to mediate holistic views of what is considered to be of crucial importance in artistic practice analysis and education This exploration opens up possibilities for new theoretical and practical insights with regard to how the borderland between temporal art forms can be conceptualized The book will be of interest not only to scholars of music and theatre but also to those who work in the fields of aesthetics intermedial studies cognitive linguistics arts theory communication theory and cultural studies Douglas Moore Jerry L.
