Soldiers Politics In Southeast Asia:

The Political Resurgence of the Military in Southeast Asia Marcus Mietzner, 2012-11-12 In the late 1990s prominent scholars of civil military relations detected a decline in the political significance of the armed forces across Southeast Asia. A decade later however this trend seems to have been reversed. The Thai military launched a coup in 2006 the Philippine armed forces expanded their political privileges under the Arroyo presidency and the Burmese junta successfully engineered pseudo democratic elections in 2010. This book discusses the political resurgence of the military in Southeast Asia throughout the 2000s. Written by distinguished experts on military affairs the individual chapters explore developments in Burma Thailand the Philippines Vietnam East Timor Indonesia and Singapore. They not only assess but also offer explanations for the level of military involvement in politics in each country. Consequently the book also makes a significant contribution to the comparative debate about militaries in politics. Whilst conditions obviously differ from country to country most authors in this book conclude that the shape of civil military relations is not predetermined by historic economic or cultural factors but is often the result of intra civilian conflicts and divisive or ineffective political leadership.

Soldiers and Politics in Southeast Asia J. Stephen Hoadley, 2017-09-05 By exploring the role of military officers and chronicling the sequences of events *Soldiers and Politics in Southeast Asia* offers insight into the conditions that fostered military governments specifically in Thailand Burma South Vietnam Indonesia and Cambodia. Critically comparing these case studies and statistics this volume provides readers with a deeper understanding of the causes and consequences of military involvement in the region's politics during the post colonial period covered. Two ideologically opposed positions evolved around the phenomenon of military insurgency. Technological conservatism generally favors military insurgency in previously civilian led governments. There was a presumption that it encourages stability efficiency and anti communism. The revisionist position on the other hand was highly critical of technological conservatism especially with regard to its political fervor. J. Stephen Hoadley asserts that the relevant question is not one of ideological choices rather it is whether a military or civilian led government is better suited for the political and economic development of a particular underdeveloped nation. Hoadley argues that there is little difference between military and civilian led governments in their abilities to establish stability and maintain law. The book concludes that neither conservative nor radical views are fully correct as to the effects of military led governments on development. *Soldiers and Politics in Southeast Asia* focuses exclusively on civil military politics in Southeast Asia in a critical period for the region and it should be read by all individuals interested in Southeast Asian politics and development long after Cold War issues have come to a close.

Civil-military Relations in Democratising Indonesia Bilveer Singh, 2001 *Military Regimes in Southeast Asia* Jules Frederick Bonjour, 1963 **The Politics of Military Reform in Post-Suharto Indonesia** Marcus Mietzner, 2006 This study discusses the process of military reform in Indonesia after the fall of Suharto's New Order regime in 1998 The extent of Indonesia's progress in this area has been the subject of heated debate both in Indonesia and in Western capitals Human rights organizations and critical academics on the one hand have argued that the reforms implemented so far have been largely superficial and that Indonesia's armed forces remain a highly problematic institution Foreign proponents of military assistance to Indonesia on the other hand have asserted that the military has undergone radical change as evidenced by its complete extraction from political institutions This study evaluates the state of military reform eight years after the end of authoritarian rule pointing to both significant achievements and serious shortcomings Although the armed forces in the new democratic polity no longer function as the backbone of a powerful centralist regime and have lost many of their previous privileges the military has been able to protect its core institutional interests by successfully fending off demands to reform the territorial command structure As the military's primary source of political influence and off budget revenue the persistence of the territorial system has ensured that the Indonesian armed forces have not been fully subordinated to democratic civilian control This ambiguous transition outcome so far poses difficult challenges to domestic and foreign policymakers who have to find ways of effectively engaging with the military to drive the reform process forward This is the twenty third publication in Policy Studies a peer reviewed East West Center Washington series that presents scholarly analysis of key contemporary domestic and international political economic and strategic issues affecting Asia in a policy relevant manner *Southeast Asia*, 1982 *Securing Southeast Asia* Mark Beeson, Alex Bellamy, 2012-10-12 This book uniquely applies the security reform agenda to Southeast Asia It investigates recent developments in civil military relations in the region looking in particular at the impact and utility of the agenda on the region and assessing whether it is likely to help make the region more stable and less prone to military interventions It provides an historical overview of the region's civil

military relations and goes on to explore the dynamics of civil military relations within the context of the security sector reform framework focusing on the experiences of four of the region's militaries Malaysia Thailand the Philippines and Indonesia It argues that although regional militaries have not necessarily followed a Western model significant developments have occurred that are broadly in keeping with the security sector reform agenda and which suggests that the prospects for stable civil military relations are brighter than some sceptics believe *World Military History Bibliography* Barton C.
