## Soe Syllabus:

How to Be a Spy, 2004-04 During World War II training in the black arts of covert operation was vital preparation for the ungentlemanly warfare waged by the Special Operations Executive SOE against Hitler's Germany and Tojo's Japan. Reproduced here is the most comprehensive training syllabus used at SOE's Special Training Schools STSs showing how agents learnt to wreak maximum destruction in occupied Europe and beyond. The training took place in country houses and other secluded locations ranging from the Highlands of Scotland to Singapore and Canada. An array of unconventional skills are covered from burglary, close combat and silent killing through to propaganda, surveillance and disguise, giving insight into the workings of one of World War II's most intriguing organizations. Denis Rigden's introduction sets the documents in its historical context and includes stories of how these lessons were put into practice on actual wartime missions. **SOE Syllabus**, 2004 In the early years of World War II prospective agents for the Special Operations Executive were trained in the black arts of camouflage, sabotage and subterfuge. This training took place in a variety of requisitioned country houses all over Britain from Arisaig in the highlands of Scotland to Beaulieu Manor in the New Forest. This book reproduces the extensive training manuals used to prepare agents for their highly dangerous missions behind enemy lines. The courses covered a variety of clandestine skills including disguise, surveillance, burglary, interrogation, close combat and assassination. In short, everything needed to wreak havoc in occupied Europe. Denis Rigden's expert introduction sets the file in its historical context and includes stories of how these lessons were carried out on actual wartime missions. **Special Forces Hero** Thomas Harder, 2021-03-23 Until the German occupation of his native Denmark in April 1940, Anders Lassen had no interest in the War. Yet over the next five years he became a highly decorated Special Forces legend and the only non-Commonwealth recipient of the Victoria Cross. After taking part in a mutiny on board a Danish ship, he made his way to Scotland. He first joined the Special Operations Executive before serving with the Small Scale Raiding Force, Special Air Service and Special Boat Service. He took part in the daring Operation Postmaster off West Africa and raided the Channel Islands and the Normandy coast. He saw most action in Eastern Mediterranean fighting in Crete, the Dodecanese, Yugoslavia, mainland Greece and finally Italy. In April 1945, now a major aged 24, he was killed at Lake Comacchio where his gallantry earned him his posthumous VC. This superb biography is not just a worthy tribute to an outstanding soldier but a superb account of the numerous special force operations Anders was involved in. **Securing Africa** Toyin Falola, Charles Thomas, 2013-10-30 Africa has been and currently is the site of numerous conflicts and crises. Authors previously wrote of these as specifically African problems or the problems of Europeans in Africa, but newer scholarship on other aspects of Africa has come to stress the interconnectness of Africa and the wider world. Still, it has often been limited to studies of isolated instances within African countries with little to no connection to greater patterns of international power and violence. This volume explores the historical and present local and international dimensions of the myriad security crises in Africa from

the role of international relations during liberation to multinational efforts against piracy

### **Rediscovering Irregular**

**Warfare** A. R. B. Linderman, 2016-02-29 Britain's Special Operations Executive SOE which conducted sabotage campaigns and supported resistance movements in Axis occupied Europe and in Asia is often described as Winston Churchill's brainchild. But as A. R. B. Linderman reveals in this engrossing history the real genius behind Britain's clandestine warriors was Colin Gubbins, a British officer who forged the SOE by drawing on lessons learned in irregular conflicts around the world. Following Gubbins through operations he studied and participated in, Linderman maps the evolution of the SOE from its origins to its doctrine to its becoming a critical institution. Part biography, part intellectual and organizational history, *Rediscovering Irregular Warfare* is the first book to explore the origins of a substantial force in the Allies' victory in World War II. Although popular history holds that Britain entered World War II with no prior knowledge of or experience with underground warfare, *Rediscovering Irregular Warfare* tells us otherwise. Linderman finds ample precedent in the clearly documented work of Gubbins and his fellow clandestine organizers. He traces Gubbins's career from 1914 through World War I and such irregular conflicts as the Allied intervention in Russia, the Irish Revolution, and conflicts in British India. To these firsthand experiences, Gubbins added the insights of colleagues who had served with him and in Iraq, as well as what he learned from the Second Anglo-Boer War, the Arab Revolt led by T. E. Lawrence, the German guerrilla war in East Africa, the revolt in Palestine between the world wars, the Spanish Civil War, and the Second Sino-Japanese War. The two booklets that Gubbins wrote based on his accumulated knowledge offered the first synthesis of British unconventional warfare doctrine: practical guides that emphasized the centrality of local populations, the collection, protection, and use of intelligence, the necessity of cooperating with conventional forces, and the use of speed, surprise, and escape in ambush operations. In 1940, when Gubbins joined the newly created SOE, the experience and know-how codified in his guides formed the basis of Britain's approach to irregular warfare. The history of the SOE's doctrinal origins is Colin Gubbins's story. By telling that story, *Rediscovering Irregular Warfare* amplifies and clarifies our understanding of the Second World War and of doctrines of unconventional warfare in the twentieth century.

### **Special Operations Forces**

Emily Spencer, 2011 In order to expand the dialogue of Canadian Special Operations Forces and their unique range of capabilities with their partners within the defence community, the media, and the Canadian public, a symposium was held at the Royal Military College of Canada in 2010. This volume represents an amalgam of the presentations and ideas that were put forward by scholars and military practitioners in order to both educate as well as create discourse on the subject of SOF. Beginning with the Canadian SOF legacy and how it has evolved to meet the nation's needs, it moves on to look at crucial components of force development and ways in which SOF help to shape the area of operations. It explores important issues such as the role of SOF as an economy of effort, economy of force, option in the contemporary operating environment, as well as the budding
