**Changes and Innovations in Social Systems** Sarka Hoskova-Mayerova, Cristina Flaut, Daniel Flaut, Pavlina Rackova, 2025-05-13 This book presents challenges and innovations in social problems over the centuries. By their nature human beings are innovative and continuously adapted to appeared changes over the time. From this point of view human history can be considered as the story of all changes and innovations which have drastically influenced our way of life. Changes and innovations are normal things in the way of adaptation and are necessary conditions for survival along the time. Changes and innovations are hard and long term processes. Any progress in history is the result of changes and innovations. To innovate changes are required in the culture in the education in the way of working in the way of think etc. In the same time innovations imply changes and changes usually generate reactions. Innovations are always oriented to the

future and in turn imply changes From here the race of evolution was born Changes require effort generate resistance but in the same time increase performance in almost all domains and increase vision and leadership therefore the progress is obtained To grew up as a field and provide changes innovations need to present its theoretical foundations which make sense of the domains on which they are applied To emphasize the above aspects the proposed book presents some aspects regarding but not only limited to computer science new theoretical and practical applications mathematics mathematical models all mathematical results which can improve or are inspired from another known results some aspects regarding history of mathematics etc education etc The chapters of the book present the state of arts of the chosen subjects from its beginning its developments and its applications by emphasizing the connection with the application or model that the authors have chosen for the presentation
