This comprehensive discussion of the singer songwriter guitarist's life carves autobiographical details from the lyrics of his song catalog Jimi Hendrix was a rock n roll guitar god and remains an important rock icon still popular despite the four decades that have passed since his death in 1970 The Words and Music of Jimi Hendrix uses Hendrix's music including the posthumous album *Valleys of Neptune* released on March 9 2010 to shed light on the details of the singer songwriter's all too brief life Organized chronologically the book provides an in depth look at Hendrix's life carving autobiographical details from his lyrics At the same time it offers readers a better understanding of the superstar's music and the forces behind it The book focuses on the three albums released during Hendrix's life as well as the major posthumous works Priority is also given to touring and to the influence of other guitarists

**Soft Machine** Scott Meze, 2025-06-23 Soft Machine are perceived as cold and forbidding At their peak in the 1970s they purposefully raised the hackles of pop journalists the musical establishment and even their own fans Their music was designed to exclude all but the most devoted Their line up constantly churned divesting themselves of every player that tried to make a human connection Instead of the community of live performance they favoured an abusive blast of ferocious noise All of this was true only for a short period of their career and is certainly not the case for more recent incarnations If the music is given a chance an entirely different band emerges one that is sly spry tuneful trippy and surprisingly welcoming merging a glorious melange of prog rock jazz fusion and much more This book guides you through the maze of the band's works revealing why every album is worthy of re evaluation why they're so influential and why you should rush to assimilate as many of them as you can It covers the live and studio material released by the parent group all related projects with a Soft in their name and the essential extracurricular activities of members from 1960 to the present day Scott Meze is a psychedelic music obsessive born in Britain but based in Tokyo the music connoisseur's capital of the world Soft Machine have been one of the abiding loves of his life ever since a friend played him a tape of *Triple Echo* while careening his thoroughly chemicalised brain through the hills of South Somerset on the back of a Moto Guzzi 850 Le Mans You don't ignore an education like that
