Soils Soil Fertility 2nd Edition:

Soil Fertility Boyd Ellis, Henry Foth, 2018-05-04 Soils are one of the world's most important resources and their protection, maintenance, and improvement is critical to the continuance of life on earth. Soil Fertility Second Edition offers thorough coverage of the fertility, composition, properties, and management of soils. This book carries on the tradition of excellence established by authors Henry Foth and Boyd Ellis, leading soil scientists whose previous books in this field have become multi-edition classics. The Second Edition of Soil Fertility has been significantly expanded to include more information on mineralogy while keeping the thorough coverage of essential topics. The book presents soils as dynamic, constantly changing bodies and relates soil fertility and management to the mineralogy of their origin. Four new chapters offer updated information on soil charge, properties, ion adsorption, exchange, and fixation, and soil reaction. There is also a far greater emphasis on environmental issues, reflecting the increasing importance of environmental concerns to agronomists and soil scientists today.

Universal Forestry 2nd Ed. (UPSC, PCS, ARS/SRF/JRF/AFO, State PG & Ph.D. Entrance examinations and interviews of all Forest services) Mohit Husain, 2019-11-01 Universal forestry contains all the major subjects of forestry, including memory-based previous years JRF, SRF papers and key points of the latest state forest report. The book covers 22 chapters in bullet forms as well as in the tabulated form. This book's first edition was highly demandable among the competitors. The unique feature of this book is that all the major Forestry subjects are included in this book. Primary Universal Forestry 2nd Edition is highly useful for ICAR JRF, SRF, NET examinations as well as other allied Forest service examinations. Most important thing is that this book is purely based on ICAR JRF, SRF, and NET syllabus. This book includes state-wise Forest profile in tabulated form, which is very important for all Forestry examinations as well as the interviews of Forestry fields. This book again makes sure that its readers will be able to attempt all the questions asked in ICAR JRF, NET allied Forestry exams and Forest service exams. 2nd Edition of this book also contains all the important questions asked in all other Forestry-related examinations during the years 2018-2019. Secondary Universal Forestry 2nd Edition is highly useful for students for the preparation of their semester examinations. This book covers all the points which are asked in their semester examinations. Because this book is written by the author after reading all the standard text books of Forestry, the simplified language of this book will be grasped by any average aspirant. I hope that 2nd edition of this book will also fulfill all the need of students as well as aspirants related to preparation of Forestry competition examination. Author is highly thankful to all readers and their Professors to make this book first choice of Forestry aspirants.
