Solidarity Of Strangers:

Solidarity of Strangers Jodi Dean, Professor Jodi Dean, 1996-01-01 Anyone concerned by the swirling academic and political debates over identity politics multiculturalism and what could bring us together in divisive times should read Jodi Dean's welcome argument for reconstructing a conscious deliberative solidarity With insightful engagement with scholars as diverse as Judith Butler Cornel West Jurgen Habermas and Lynet Uttal Dean models the kind of dialogue she advocates Martha Minow author of *Making All the Difference Inclusion Exclusion and American Law* *Solidarity of Strangers* is an impressive achievement Dean works to move political theory beyond the poststructuralist Habermasian divide as she offers a discourse ethics that accounts for difference and a universalism that does not abandon specificities Shane Phelan author of *Getting Specific Postmodern Lesbian Politics* Dean offers a strong original and humane defense of universalist ideals against doubts which she deeply grasps and sympathetically arrays of the compatibility of such ideals with a respect for difference Frank Michelman Harvard Law School Dean has a real gift for weaving personal narrative current events law and high theory Her complicated and important argument attempts to move beyond the either/or of identity politics and its critics via a creative reevaluation of universalism premised on difference and plurality A very important book Judith Grant University of Southern California author of *Fundamental Feminism Contesting the Core Concepts of Feminist Theory* Calling for inspiration on Habermas George Herbert Mead and their critics Dean challenges conventional interpretive constraints on law and theory aiming to open up contestable spaces to democratic practices She offers the ideal of reflective solidarity as a vehicle for reclaiming a qualified notion of universality for feminism This controversial move will no doubt provoke debate requiring readers to think through the link between our epistemological convictions and our political commitments Kathy Ferguson author of *The Man Question Visions of Subjectivity in Feminist Theory* *From Resource to Burden* Suvi Sankari, Sabine Frerichs, 2017 Organised solidarity of a mediated legal form constitutes the backbone of the modern welfare state built on solidarity between strangers The interplay between the single market and the national social systems is key in defining who owes what to whom under the transnationalised European solidarity Free movement rights have increased the entanglement of national social systems revenue and expenditure sides considered to jeopardise their steering capacity As a corollary to free movement transnational solidarity does not take place beyond or between national welfare states but rather within as solidarity with strangers Here transnational solidarity is applied by way of a sociological framework to trace the evolutionary path of free movement of persons as it fluctuates between commodification and decommodification Against that backdrop this article reviews whether a paradigm shift is currently promoted as to the question where solidarity with strangers begins and ends **The Solidarities of Strangers** Lynn Hollen Lees, 1998-01-28 A study of English policies toward the poor from the 1600s to the present showing how clients and officials negotiated welfare settlements *A World of Strangers* Lyn H. Lofland, 1985 In traditional human societies the stranger was a threat to be disarmed at once by an act of

force or by a ritual of hospitality Under no conditions could a stranger be ignored or taken for granted Yet in all great cities today human beings seem to live out their entire lives in a world of strangers How did it become possible for millions of people to do this How is city life possible The unique value of *A World of Strangers* lies in Loflands expert use of rich historical and anthropological sources to answer these questions She demonstrates that a potentially chaotic and meaningless world of strangers was transformed into a knowable and predictable world of strangers by the same mechanism humans always use to make their world livable it was ordered Lofland offers a brilliant analysis of the various devices used at different times in history to create social and psychological order in cities concluding with an analysis of the contemporary city in which the location of the encounter between strangers has come to replace personal appearance as a means of evaluating others Lofland also describes how city people initially learn and then act upon the ordering principles dominant in their society *A World of Strangers* is a wonderfully wise and readable account of how we have come to live as we do

Taking Sides Carol Levine, 1991 **Kristeva and the Political** Cecilia Sjöholm, 2005 Julia Kristeva is one of the most influential French thinkers of the twentieth century and is best known for her work in linguistics Even though her work has been very influential the political implications of her writings have so far been neglected *Kristeva and the Political* is the first book to explore the relation of Kristeva s work to the political and casts new light on her work connecting her to recent developments in literary theory political theory and cultural studies In particular it shows how Kristeva s account of the unconscious and psychoanalysis generally widens the notion of the political Each chapter introduces a fundamental theme in Kristeva s work highlighting a specific period of development in her thought and drawing on texts from the 1960s through to the 1990s Themes addressed include Kristeva s theory of discourse the theory of the subject the notion of alterity feminism and marginality and her theory known as the politics of meaning *Kristeva and the Political* also shows how Kristeva s notions of the political draw on a rich array of thinkers and writers from Freud Melanie Klein and Lacan to Proust and Marguerite Duras

Cosmopolitanism and Europe Chris Rumford, 2007 Europe s ongoing transformation has prompted the emergence of cosmopolitanism as a particularly relevant lens through which to analyze European politics and society As the European Union grows in size its member states are increasingly occupied with responsibilities that extend beyond their narrow national interests This timely book with contributions from Ulrich Beck Daniele Archibugi and Gerard Delanty persuasively argues that cosmopolitan perspectives are vital to the study of contemporary Europe

Citizens Without Frontiers Engin F. Isin, 2012-11-02 States define who their citizens are and exert control over their life and movements But how does such power persist in a global world where people ideas and products constantly cross the borders of what the states see as their sovereign territory This groundbreaking work sets to examine and interprets such challenges to offer a new way of thinking about citizenship Abandoning the sovereignty principle it develops a new image of citizenship using the connectedness principle To do so it interprets acts of citizenship by following activist citizens across the world through case

studies from Wikileaks and the Gaza flotilla to China's virtual world and Darfur Written by a leader in the field this accessible and original work imagines citizens without frontiers as a politics without community and belonging inclusion without exclusion where the frontier becomes a form of otherness that citizens erase or create This unique work brings forth a new and creative way to approach citizenship beyond boundaries that will appeal to anyone studying citizenship social movements and migration *Contested Concepts in Gender and Social Politics* Barbara Hobson, Barbara Meil Hobson, Jane Lewis, Birte Siim, 2002 The study of gender and social politics is an expanding area This text suitable for both undergraduate and postgraduate students looks at contested concepts and themes in the subject *The Emerging European Union* Barbara Henry, Anna Loretoni, 2004 **Discourses in Global Political Theory** Hartmut Behr, Felix Rösch, 2025-11-13 This book traces narratives of belonging around the globe from a political theory perspective It highlights that such narratives have developed within the context of cultural exchange and relationality i.e. transgressing space and time and embedded in relations between material and immaterial objects These narratives are formed transculturally forcing people to re-consider, re-negotiate and re-evaluate their thoughts about community and belonging over time and often leading to changes and ruptures In getting a deeper understanding of such exchanges of personal and intellectual constellations this volume identifies potential anthropological constants in global thinking about belonging Despite different linguistic spatial and cultural socialisations trying to establish ways of living together that offer ontological security seems intrinsic to human life Insights into what unites people rather than divides them might prove beneficial in finding ways for more sustainable peaceful human relations *Rumanian studies. Solidarity in a Society of Strangers Gernot Saalmann, 2002 Zusammenfassung In spite of any ideology of smallscale communities solidarity seems possible even in our modern society To show this a distinction is made between four kinds of solidarity The argument for the possibility of reflexive solidarity between autonomous individuals is based on an examination of our orientation in social space the processes in that strangers are constructed and the deeply human longing for recognition and selfesteem All these phenomena occur on three different levels that concern cognition emotion and interaction norms There is a close connection between the chances for one's recognition by others and her/his attitude towards them The less one treats them as strangers the more likely are real interaction and communication that form the

basis of recognition as well as of the idea and the feeling of solidarity Social solidarity flows from human selfinterest and does not result from any moral prescription **Migrants and Strangers in Africa** Niara Sudarkasa,1975 Monographic compilation of articles on migration and migrant workers in Africa discusses the aims and activities of voluntary organizations in urban areas the role of migrant workers in effecting economic and social change in rural areas the impact of return migration on the country of origin etc References and statistical tables *MERCY MICHAEL SUMRALL*,2025-11-25
