Academic Community in Higher Education Brian Attebery, John Gribas, Mark K McBeth, Paul Sivitz, Kandi

Turley-Ames, 2017-03-16 Grounded in narrative theory this book offers a case study of a liberal arts college s use of narrative to help build identity community and collaboration within the college faculty across a range of disciplines including history psychology sociology theatre and dance literature anthropology and communication Exploring issues of methodology and their practical application this narrative project speaks to the construction of identity for the liberal arts in today s higher education climate Narrative Identity and Academic Community focuses on the ways a cross disciplinary emphasis on narrative can impact institutions in North America and contribute to the discussion of strategies to foster bottom up faculty driven collaboration and innovation *Restoring the Classic in Sociology* Alan R. How, 2016-06-30 This book demonstrates

that classical sociology is essential to cutting edge debates in the contemporary social sciences It has become fashionable to play down the importance of the classic text in sociology and critique the ideas of Weber Marx and Durkheim as ideologically outdated The author mounts a strong challenge to this view criticising such notions as de traditionalization structuration and postmodernism emphasizing instead the relevance of habit re traditionalization and social integration across time Arguing that sociology has eliminated the importance of the past history and tradition in favour of the transience of the present he revisits the Habermas Gadamer debate to argue that tradition is the ground of the classic and the classic something that must prove itself anew in subsequent situations He uses the work of Durkheim Simmel and Weber to illustrate this process Making a distinction between classic and canon which parallels that between agency and structure he allows the reader to appreciate the separate value of both This major contribution to the field is essential reading for scholars and students of sociology and social theory **Classical and Contemporary Sociological Theory** Scott Appelrouth, Laura Desfor

Kimmel, Matthew Mahler, 2007 In an accessible and thoughtful manner this anthology an update of Social and Political Theory Classical Readings 1998 introduces students to the

key classic texts in social thought In the second edition Michael Kimmel focuses more specifically on the discipline of sociology rather than melding classical sociological and political theories in one volume Taking a serious look at the canonical texts he presents a diverse range of thinkers who were critical to the development of sociological theory and offers a more inclusive classical canon that is informed by both the historical record and the needs of contemporary students Many of the classical theorists whose works are included here were much more influential than the canon suggested For example the writings of Mary Wollstonecraft Frederick Douglass Margaret Fuller and W E B Du Bois were widely disseminated and discussed in their time yet they were pushed to the margins of the canon declared to be derivative or second rate In attempting to set the record a bit straighter Kimmel restores these and other forgotten thinkers to the positions they once held The questions they posed are among the most vital theoretical and political questions of our era evidence that classical social and political theory continues to speak to new generations of students about the issues that most affect their lives Features new to the second edition Selections of key texts by Auguste Comte Positive Philosophy of Auguste Comte Edmund Burke Reflections on the Revolution in France John Dewey Democracy and Education and Elsie Clews Parsons Women in Public Life Stronger disciplinary focus within sociology Classical Social Theory Second Edition is an ideal text for courses in the theory of sociology the history of social theory the history of political thought and western philosophy Dyskurs ,2006
