The Brick And Tile Industry In Stark County 1809 1976:

The Brick and Tile Industry in Stark County, 1809-1976 C. Harold McCollam, **Twilight Rails** H. Roger Grant, 2010 By the start of the twentieth century railroads crisscrossed the nation yet there were still those who believed that the railroad network in the United States was far from complete Residents of small towns lacking rail access lobbied hard for steam and electric roads to serve their communities and investors eagerly started new ventures that would fill the gaps in the railway map While some of these roads enjoyed a degree of success most of them were financial flops even before the rise of the highway system made them obsolete In *Twilight Rails* H Roger Grant one of the leading railroad historians working today documents the stories of eight Midwestern carriers that appeared at the end of the railroad building craze When historians have reflected on these twilight carriers they have suggested that they were relevant only as examples of unwise business ventures Grant finds that even the weakest railroads were important to the communities they served the arrival of the railroad was cause for great celebration as residents were finally connected to the outside world A railroad's construction pumped money into local economies farmers and manufacturers gained access to better markets and the excitement generated by a new line often increased land values and inspired expansion of local businesses Even the least financially successful carriers Grant argues managed to significantly improve their local economies This thorough and highly accessible history provides a fascinating look at the motivations accomplishments and failures of the twilight carriers granting a new breath of life to this neglected aspect of American railway history **Looking Beyond the Highway** Claudette Stager, Martha Carver, 2006 *Looking beyond the Highway* is an examination of road history and roadside attractions specific to the South Focused in part on numerous aspects of the material culture landscape of the Dixie Highway the essays consider the politics of roadbuilding roadside entertainment the buildings and businesses one might encounter along the road and regional adaptations to the needs and desires of northern tourists Following the Dixie Highway from southern Illinois to Florida with sidetrips down other southern roads the essays cover a wide variety of subjects many of which will resonate with anyone who has ever lived in or vacationed in the South Harrison Mayes's *Get Right With God* signs the park and pray craze of outdoor drive in church services the rise and demise of brick highways the fierce political battle over the route of the Dixie Highway beach music and the evolution of motel architecture in Myrtle Beach Florida's early tourist towers and the commercial development of Tennessee caves as tourist attractions Covering a landscape that includes Tennessee Georgia North Carolina Florida Mississippi Indiana Virginia Arkansas Ohio Kentucky Alabama and Illinois the anthology shows that there was and still is a distinctive southern culture and how roads have influenced that culture As lively as they are diverse the articles provide a solid background for understanding roadside ephemera that have disappeared or are quickly disappearing Ranging from the serious to the light hearted and including descriptions of American road and roadside icons to kitsch the book will appeal to anyone with an interest in road history and roadside architecture **The Brick and Tile**
