**The British Commonwealth at War** William Yandell Elliott, 1971      The British Commonwealth and Victory in the Second World War Iain E. Johnston-White, 2016-12-28 This book is the first comprehensive study of the British Commonwealth in the Second World War Britain and its Dominions Canada Australia New Zealand and South Africa formed the most durable cooperative and interchangeable alliance of the war Iain E Johnston White looks in depth at how the Commonwealth war effort was financed the training of airmen for the air war the problems of seaborne supply and the battles fought in North Africa Fully one third of the British effort originated in the Dominions a contribution that was only possible through the symbiotic relationship that Britain maintained with its former settler colonies This cooperation was based upon a mutual self interest that was largely maintained throughout the war In this book Johnston White offers a fundamental reorientation in our understanding of British grand strategy in the Second World War      **The British Commonwealth at War** William Yandell Elliott, 1971      Our War Christopher Somerville, 2005-01-01 Christopher Somerville skillfully links the voices guiding them into covering such topics as racial prejudice attitudes to Britain before and after the war why Commonwealth citizens even volunteered and the inevitable disillusionment by 1945 The result is a rare and faithful memoir to the five million Commonwealth citizens who fought for the Allies and the 170 000 who died or went missing      **The British Commonwealth** Erwin Helms, 1960      **Survey of British Commonwealth Affairs** Nicholas Mansergh, 2013-08-21 First Published in 1968 This book falls into three parts The first gives some account of the impact of war upon the Commonwealth and upon its individual member nations the second records the post war changes in its composition while the third examines some of the domestic and external problems that confronted the Commonwealth in the bleak mid years of the century Each of these topics if treated exhaustively would require a volume and what is attempted in this book is no more than the analysis of certain themes which seem to bear most closely on the idea of the Commonwealth and its place in the history of our times      **Belgisch staatsblad** Belgium, 1953      *The War Dead of the British Commonwealth and Empire, 1939-1945* Great Britain.
