The Buccaneers Operational Service With The Royal Navy And Royal Air Force:

The Buccaneers Graham Pitchfork, 2002 Designed at the height of the Cold War as a carrier borne nuclear strike aircraft for the Royal Navy the first Blackburn Buccaneer entered service in 1963 The 620mph all British design saw active service with the Fleet Air Arm around Singapore during the Indonesian confrontation in the withdrawal from Aden and in Belize It was not until 1978 that the FAA's last Buccaneers were eventually retired In 1968 the RAF chose the Buccaneer as its new low level strike aircraft The first of the RAF's Buccaneers were delivered in 1969 with the initial squadron operating from the UK in the maritime strike role In RAF service Buccaneer squadrons also flew low level tactical strike operations mostly in Germany The 1991 Gulf War was the aircraft's swan song when it flew target designator sorties for other Coalition aircraft The last military Buccaneer flights took place in 1995 A total of 206 Buccaneers were built and the aircraft gave over 30 years of reliable service At its high point in 1978 five RAF and FAA operational squadrons flew the type Although the aircraft was designed for the Royal Navy it was with the RAF that it saw its longest service from 1969 to 1995

The Royal Navy in the Cold War Years, 1966-1990 Edward Hampshire, 2024-07-30 During the period covered by this new book the Royal Navy faced some of its greatest challenges both at sea confronting the increasingly capable and impressive Soviet Navy and on shore when it faced policy crises that threatened the survival of much of the fleet During this remarkable period the Navy had rarely been so focussed on a single theater of war the Eastern Atlantic but also rarely so politically vulnerable The author sets out to analyze shadowing operations and confrontations at sea with Soviet ships and submarines the Navy's role in the enormous NATO and Warsaw Pact naval exercises that acted out potential war scenarios individual operations from the Falklands and the 1990-91 Gulf War to the Beira and Armilla patrols the development of advanced naval technologies to counter Soviet capabilities policy making controversies as the three services fought for resources including the controversial 1981 Nott defense review and what life was like in the Cold War navy for ratings and officers The book the first to cover this subject in depth for more than thirty years will make use of the full range of archival sources that have been publicly available over the last two decades but of which little use has been made by historians This work is destined to become a definitive naval history of the period and also provide a fascinating and gripping narrative of a navy under threat from many directions but which survived and eventually prospered winning a remarkable victory in the far South Atlantic more than 7 000 miles from its expected battleground in the North Atlantic Elegantly written for a wide audience it will be a very significant volume for professional and enthusiast alike

Losing an Empire and Finding a Role K. Stoddart, 2012-04-11 This book sheds fresh light on developments in British nuclear weapons policy between October 1964 when the Labour Party came back into power under Harold Wilson following a thirteen year absence and June 1970 when the Conservative government of Edward Heath was elected
