New York: Art and Cultural Capital of the Gilded Age Margaret R. Laster,Chelsea Bruner,2018-08-06 Fueled by a flourishing capitalist economy undergirded by advancements in architectural design and urban infrastructure and patronized by growing bourgeois and elite classes New York s built environment was dramatically transformed in the 1870s and 1880s This book argues that this constituted the formative period of New York s modernization and cosmopolitanism the product of a vital self consciousness and a deliberate intent on the part of its elite citizenry to create a world class cultural metropolis reflecting the city s economic and political preeminence The interdisciplinary essays in this book examine New York s late nineteenth century evolution not simply as a question of its physical layout but also in terms of its radically new social composition comprising the individuals institutions and organizations that played determining roles in the city s cultural ascendancy
