The Canadian Identity

William L. Morton

The Canadian Identity:

Symptoms of Canada Kieran Keohane, 1997 In this provocative essay on the Canadian identity Kieran Keohane gives us his outsider's take on Canada's most debated issue. Keohane argues that conflicting objectives have caused the impasse in our search for collective identity. These objectives are marked by official multiculturalism, a proliferation of interest groups and resurgent xenophobia. Integrating social and political theory with witty examples, he explores how a strong Canadian identity might be constructed. *Symptoms of Canada* breaks the stalemate in our search for the Canadian identity. A refreshing read for Canadians who are tired of the polemics surrounding this issue, it offers valuable insight to all countries where the question of identity is a national concern.

The Canadian Identity William Lewis Morton, 1972 *The Construction of Canadian Identity from Abroad* Christopher Kirkey, Richard Nimijean, 2022-03-20 Migration and the impact that immigrants have on Canada is and always has been central to a robust understanding of Canadian identity. However, despite claims that the world needs more Canada Canadians, their governments and scholars pay much less attention to the estimated 3 million Canadian expatriates who live elsewhere. *The Construction of Canadian Identity from Abroad* features Canadian scholars who live and work outside Canada or have recently returned to Canada and who write and think deeply about identity construction. What happens when that Canadian is a scholar whose teaching, research and scholarship, professional development and/or community engagement focuses directly on Canada? How does being abroad affect how we interpret Canada? In short, in what ways does externality affect how Canadian expat scholars intellectually approach, construct and identify with Canada? This engaging volume is ideal for university students, scholars, government officials and the general public.

Reconstructions of Canadian Identity Vander Tavares, Maria João Maciel Jorge, 2024-04-19 Re-envisioning multiculturalism in Canada. In 1971, Canada became the first nation in the world to officially declare its bilingual and multicultural policies. *Reconstructions of Canadian Identity* examines what has changed over the past fifty years, highlighting the lived experiences of marginalized Canadians and offering insights into the critical work that lies ahead. Editors Vander Tavares and Maria João Maciel Jorge bring together a wide range of disciplines and perspectives to investigate inclusion and exclusion within the processes, discourses and practices that forge and frame Canadian identity. Chapters analyze ways current multicultural policies continue to benefit the dominant groups and further harm minoritized ones. Exposing the pitfalls of established notions of Canadian identity, this volume moves traditionally othered identities, immigrant, racialized, hybridized, Indigenous and women to the forefront. In doing so, it reveals how these identities negotiate and claim legitimacy, arguing for a reconceptualization from the margins that truly fosters diversity and inclusion. Illustrating both the shortcomings of and possibilities for a more inclusive multiculturalism in Canada, *Reconstructions of Canadian Identity* invites readers to reflect on what it means to be Canadian in the twenty-first century.

The European Roots of Canadian Identity Philip Resnick,2005-04-01 What makes Canada a different kind of society from the United States In this book length essay Philip Resnick argues that in more ways than one Canada has been profoundly marked by its European origins This is most apparent where the European historical underpinnings both of English speaking

and French speaking Canada are concerned but it is no less true when one examines Canada's multiple national identities robust social programs increasingly secular values and multilateral outlook on international affairs today As the war in Iraq brought home and the 2004 federal election reinforced Canada is a more European type society than is our neighbour to the south This does not come without its own complexities or problems On the contrary there are significant parallels between the ambiguous versions of national identity that one finds in Canada and what one finds on the European continent There are parallels too between the elements of self doubt that characterize Canadians overall when they think about their country and those of Europeans caught up in their own often fractious attempts to forge a more integrated Europe The author argues that Canada needs Europe as an effective counter weight to the influence of the United States He further argues that at a deeper existential level Canadians need relevant European references to better understand what makes them the kind of North Americans that they are

The House of Difference Eva Mackey,2002-01-01 Mackey argues that official policies and attitudes of multicultural tolerance for others reinforce the dominant Anglo Canadian culture by abducting the cultures of minority groups

*The Canadian Identity; Three Articles ,1964** Is There a Canadian Philosophy? Gary Brent Madison,Paul Fairfield,Ingrid Harris,2000 Is There a Canadian Philosophy addresses the themes of community culture national identity and universal human rights taking the Canadian example as its focus The authors argue that nations compelled to cope with increasing demands for group recognition may do so in a broadly liberal spirit and without succumbing to the dangers associated with an illiberal adversarial multiculturalism They identify and describe a Canadian civic philosophy and attempt to show how this modus operandi of Canadian public life is capable of reconciling questions of collective identity and recognition with a commitment to individual rights and related principles of liberal democracy They further argue that this philosophy can serve as a model for nations around the world faced with internal complexities and growing demands for recognition from populations more diverse than at any previous time in their histories Published in English
