## **The Cancer War:**

**The Cancer War** Anthony Herrera, 2004-04-01      **The Nazi War on Cancer** Robert Proctor, 2024-05-14 A troubling account of how good science can come from an evil regime Collaboration in the Holocaust Murderous and torturous medical experiments The euthanasia of hundreds of thousands of people with mental or physical disabilities Widespread sterilization of the unfit Nazi doctors committed these and countless other atrocities as part of Hitler's warped quest to create a German master race Robert Proctor recently made the explosive discovery however that Nazi Germany was also decades ahead of other countries in promoting health reforms that we today regard as progressive and socially responsible Most startling Nazi scientists were the first to definitively link lung cancer and cigarette smoking Proctor explores the controversial and troubling questions that such findings raise Were the Nazis more complex morally than we thought Can good science come from an evil regime What might this reveal about health activism in our own society Proctor argues that we must view Hitler's Germany more subtly than we have in the past But he also concludes that the Nazis forward looking health activism ultimately came from the same twisted root as their medical crimes the ideal of a sanitary racial utopia reserved exclusively for pure and healthy Germans Author of an earlier groundbreaking work on Nazi medical horrors Proctor began this book after discovering documents showing that the Nazis conducted the most aggressive antismoking campaign in modern history Further research revealed that Hitler's government passed a wide range of public health measures including restrictions on asbestos radiation pesticides and food dyes Nazi health officials introduced strict occupational health and safety standards and promoted such foods as whole grain bread and soybeans These policies went hand in hand with health propaganda that for example idealized the Führer's body and his nonsmoking vegetarian lifestyle Proctor shows that cancer also became an important social metaphor as the Nazis portrayed Jews and other enemies of the Volk as tumors that must be eliminated from the German body politic This is a disturbing and profoundly important book It is only by appreciating the connections between the normal and the monstrous aspects of Nazi science and policy Proctor reveals that we can fully understand not just the horror of fascism but also its deep and seductive appeal even to otherwise right thinking Germans

**The Breast Cancer Wars** Barron H. Lerner, 2003 Chronicles the various campaigns waged against breast cancer and its effects on women during the last century      **The Cancer Conspiracy** Robert E. Netterberg, Robert T. Taylor, 1981      *Cancer Care in Areas of Conflict* Omar Shamieh, Fouad M. Fouad, Asem H. Mansour, Richard Sullivan, Tezer Kutluk, 2023-11-23 Cancer is a global burden with more than 18 million diagnosed and an estimate of 10 million deaths in 2020 worldwide Cancer continues to be a major and growing problem in conflict affected areas too The incidence of cancer is expected to rise significantly in those countries compared to the rest of the world Conflict massive migration and displacement has put a tremendous pressure on all health care systems and health economy which halted improvement in many cancer care in majority of the countries Countries affected by conflict like Syria Ukraine Iraq Yemen Latin America and others has led to destruction of the

whole countries healthcare infrastructure including health care facilities diagnostic facilities and unavailability of drugs and loss of health care professionals due to death migration or disabilities This lead to inequitable access to care lack of prevention loss of screening programs delay in diagnosis loss of follow up and in many cases no anticancer therapy or palliative care to offer Historically most of humanitarian aid was focused on basic needs and first aid leaving NCDs including cancer care with trivial support if any Recently with the Russian invasion of Ukraine and the negative global economic crisis refugees all over the globe will have devastating impact on cancer care screening early detection treatment and palliative care

**The War on Cancer** Guy Faguet,2005-12-01 After reviewing the history of cancer and its impact on the population Dr Faguet exposes the antiquated notions that have driven cancer drug development documents the stagnation in treatment outcomes despite major advances in cancer genomics and growing NCI budgets and identifies the multiple factors that sustain the status quo He shows that contrary to frequent announcements of breakthroughs our current cancer control model cannot eradicate most cancers and the reasons why Significantly this book also delineates a way forward via a shift from the discredited cell kill approach of the past to an integrated evidence driven cancer control paradigm based on prevention early diagnosis and pharmacogenomics The author s views are based on data published in mainstream scientific journals and other reliable references 432 of which are cited
