The Bridge Of Life:

The Bridge of Dreams Haruo Shirane, 1987 *The Bridge of Dreams* is a brilliant reading of *The Tale of Genji* that succeeds both as a sophisticated work of literary criticism and as an introduction to this world masterpiece. Taking account of current literary theory and a long tradition of Japanese commentary, the author guides both the general reader and the specialist to a new appreciation of the structure and poetics of this complex and often seemingly baffling work. *The Tale of Genji*, written in the early eleventh century by a court lady, Murasaki Shikibu, is Japan's most outstanding work of prose fiction. Though bearing a striking resemblance to the modern psychological novel, *Genji* was not conceived and written as a single work and then published and distributed to a mass audience as novels are today. Instead, it was issued in limited installments, sequence by sequence, to an extremely circumscribed aristocratic audience. This study discusses the growth and evolution of *Genji* and the manner in which recurrent concerns—political, social, and religious—are developed, subverted, and otherwise transformed as the work evolves from one stage to another. Throughout, the author analyzes *Genji* in the context of those literary works and conventions that Murasaki explicitly or implicitly presupposed her contemporary audience to know and reveals how *Genji* works both within and against the larger literary and sociopolitical tradition. The book contains a color frontispiece by a seventeenth-century artist and eight pages of black and white illustrations from a twelfth-century scroll. Two appendixes present an analysis of biographical and textual problems and a detailed index of principal characters.
