**Between Betrothal and Bedding** Mia Korpiola,2009-02-23 Swedish medieval marriage formation was a process written down in the secular laws However it started to evolve because of the interaction with the medieval Catholic marriage doctrine which focused on mutual words of consent Although first the canon law of marriage and then Lutheran marriage dogma influenced the Swedish development the perception of marriage as a process consisting of several legal acts and accompanied by property transfers proved remarkably resilient The pragmatic and rural character of Sweden contributed to this despite pressure from canon and Roman law and attempts at bringing marriage formation under ecclesiastical control Marrying by stages was in itself unremarkable in Europe but the legal foundation and formality make medieval and sixteenth century Sweden a unique case study *Betrothal* Henry K.
