the ocean assumed for writers readers and thinkers on both sides of the Atlantic during this period of global exploration and colonial consolidation The book s introduction offers three critical lenses through which to read nineteenth century Anglophone maritime literature wet globalization which returns the ocean to our discourses of the global salt aesthetics which considers how the sea influences artistic culture and aesthetic theory and blue ecocriticism which poses an oceanic challenge to the narrowly terrestrial nature of green ecological criticism The essays employ all three of these lenses to demonstrate the importance of the ocean for the changing shapes of nineteenth century Anglophone culture and literature Examining texts from Moby Dick to the coral flower books of Victorian Australia and from Wordsworth s sea poetry to the Arctic journals of Charles Francis Hall this book shows how important and how varied in meaning the ocean was to nineteenth century Anglophone readers Scholars of nineteenth century globalization the history of aesthetics and the ecological importance of the ocean will find important scholarship in this volume      Works Rudyard Kipling,1899
