[Labour and the Poor in England and Wales - The letters to The Morning Chronicle from the Correspondants in the Manufacturing and Mining Districts, the Towns of Liverpool and Birmingham, and the Rural Districts](#) J. Ginswick,2016-09-13
The Morning Chronicle presented the state of the working classes of Britain before the public with clarity insight and honesty Consisting mainly of verbatim statements from the people themselves it was a medium through which the previously inarticulate masses were able to speak with one firm voice First published in 1983 this book collates the letters from correspondents based in Lancashire Cheshire and Yorkshire The letters improve our knowledge of working class life in nineteenth century England and Wales and provide a unique insight into the impact of industrialization This book will be of interest to those studying the history of the working class labour and poverty

Coal Barbara Freese,2016-02-09 Engrossing Coal to borrow a phrase is king New York Times Book Review In this remarkable book Barbara Freese takes us on a rich historical journey that begins hundreds of millions of years ago and spans the globe Prized as the best stone in Britain by Roman invaders who carved jewelry out of it coal has transformed societies launched empires and expanded frontiers It made China an eleventh century superpower inspired the Communist Manifesto and

helped the North win the American Civil War Yet coal's transformative power has come at tremendous cost from the blackening of our lungs and skies to the perils of mining to global warming Now updated with a new chapter describing the high stakes conflict between coal's defenders and those working to preserve a livable climate Coal offers a captivating history of the mineral that helped build the modern world but now endangers our future **The National Union Catalogs**,

Organisierte Intransparenz Eva-Maria Roelevink,2015-10-16 Als sich im Februar 1893 einige Bergwerke in der Ruhrindustrie in Essen zusammenfanden und das Rheinisch-Westfälische Kohlen-Syndikat (RWKS) gegründet, ahnten sie nicht, dass mit diesem Akt das bedeutendste und langlebigste Kartell der deutschen Wirtschaftsgeschichte aus der Taufe gehoben wurde. Die Preis- und Macht-Macht des Kartells war bald ebenso sprichwörtlich wie die gnadenlose und strenge Herrschaft des Kohlengroßhandels über interessierte Zeitgenossen. Ein Begriff, der Eva Maria Roelevink fragt nach den Hintergründen dieser Kartellmacht. Am Beispiel des niederrheinischen Marktes wird die Binnenordnung des RWKS dechiffriert und damit erstmals der Schleier um seine abstrakte Syndikatsordnung gelüftet. Die Macht des Kartells, die Struktur des RWKS und die Kartellierungseffekte im Allgemeinen erfahren so anhand von bisher nicht berücksichtigten Archivquellen eine vollständige Neubewertung. **The Publishers' Trade List Annual**,1972 **Great Pit Disasters: Great Britain, 1700 to the Present Day** Helen Duckham, Baron Frederick Duckham,1973 **The British Library General Catalogue of Printed Books to 1975** British Library (London), Jim Emmett,1981 **A People's History of Classics** Edith Hall, Henry Stead, 2020-02-26 A People's History of Classics explores the influence of the classical past on the lives of working-class people whose voices have

been almost completely excluded from previous histories of classical scholarship and pedagogy in Britain and Ireland from the late 17th to the early 20th century. This volume challenges the prevailing scholarly and public assumption that the intimate link between the exclusive intellectual culture of British elites and the study of the ancient Greeks and Romans and their languages meant that working class culture was a Classics Free Zone. Making use of diverse sources of information both published and unpublished in archives, museums and libraries across the United Kingdom and Ireland, Hall and Stead examine the working class experience of classical culture from the Bill of Rights in 1689 to the outbreak of World War II. They analyse a huge volume of data from individuals, groups, regions and activities in a huge range of sources including memoirs, autobiographies, Trade Union collections, poetry, factory archives, artefacts and documents in regional museums. This allows a deeper understanding not only of the many examples of interaction with the Classics but also what these cultural interactions signified to the working poor from the promise of social advancement to propaganda exploited by the elites to covert and overt class war. *A People's History of Classics* offers a fascinating and insightful exploration of the many and varied engagements with Greece and Rome among the working classes in Britain and Ireland and is a must read not only for classicists but also for students of British and Irish social, intellectual and political history in this period. Further, it brings new historical depth and perspectives to public debates around the future of classical education and should be read by anyone with an interest in educational policy in Britain today.
