Towards Rewriting? Piotr Ł. Grotowski, 2010 *Religious Franks* Rob Meens, Dorine van Espelo, Bram van den Hoven van Genderen, Janneke Raaijmakers, Irene van Renswoude, Carine van Rhijn, 2016-04-29 This volume in honour of Mayke De Jong offers twenty five essays focused upon the importance of religion to Frankish politics a discourse to which De Jong herself has contributed greatly in her academic career The prominent and internationally renowned contributors offer fresh perspectives on various themes such as the nature of royal authority the definition of polity unity and dissent ideas of correction and discipline the power of rhetoric and the rhetoric of power and the diverse ways in which power was institutionalised and employed by lay and ecclesiastical authorities As such this volume offers a uniquely comprehensive and valuable contribution to the field of medieval history in particular the study of the Frankish world in the eighth and ninth centuries

The Old Testament in Byzantium Paul Magdalino, Robert S. Nelson, 2010 The Old Testament in Byzantium contains papers from a Dumbarton Oaks symposium based on an exhibition of early Bible manuscripts titled In the Beginning Bibles before the Year 1000 Topics include manifestations of the holy books in Byzantine manuscript illustration architecture and government as well as in Jewish Bible translations *Artibus Et Historiae* , 2005 *The Cult of the Mother of God in Byzantium* Leslie Brubaker, Mary B. Cunningham, 2011 This volume on the cult of the Theotokos Virgin Mary in Byzantium focuses on textual and historical aspects of the subject thus complementing previous work which has centered more on the cult of images of the Mother of God This international cast of scholars consider the development and transformation of the cult from approximately the fourth through the twelfth centuries The aim of this volume is to build on recent work on the cult of the Virgin Mary in Byzantium and to explore new areas of study The rationale is critical and historical using literary artistic and archaeological sources to evaluate her role in the development of the Byzantine understanding of the ways in which God interacts with creation by means of icons relics and the Theotokos

The Glory of Byzantium Metropolitan Museum of Art (New York, N.Y.), 1997 Serves as both visual and textual record of the exhibition of the same name surveying the art of the Middle Byzantine period from the restoration of the use of icons by the Orthodox Church in 843 to the occupation of Constantinople by the Crusader forces from the West from 1204 to 1261 Conceived as a sequel to the 1976 exhibition Age of Spirituality which focused on the first centuries of Byzantium Preceding the catalogue 17 essays treat the historical context religious sphere and secular courtly realm of the empire and the interactions between Byzantium and other medieval cultures Abundantly illustrated Annotation copyrighted by Book News Inc Portland OR [Images of Cosmology in Jewish and Byzantine Art](#) Shulamit Laderman, 2013-05-30 Does the design of the Tabernacle in the wilderness correspond to God's blueprint of Creation The Christian Topography a sixth century Byzantine Christian work presents such a cosmology Its theory is based on the pattern revealed to Moses on Mount Sinai when he was told to build the Tabernacle and its implements after their pattern which is being shown thee on the Mount Exod 25 40 The book demonstrates through texts and

images the motifs that link the Tabernacle and Creation It traces the long chain of transmission that connects the Jewish and Christian traditions from Syria and ancient Israel to France and Spain from the first through the fourteenth century revealing new models of interaction between Judaism and Christianity **Arts & Humanities Citation Index** ,2001 **Literacy, Education and Manuscript Transmission in Byzantium and Beyond** Catherine Holmes,Judith Waring,2021-10-01 The papers in this volumes consider literacy education and manuscript transmission in Byzantium and its neighbouring worlds areas which to date have received surprisingly little sustained scholarly treatment among Byzantinists Contributions include an overview survey papers and individual case studies many of which draw on recently discovered or rarely consulted sources literary sources include astrological texts saints lives and florilegia as well as documentary texts art and archaeological evidence The contributors fields reflect the interdisciplinary scope of this volume covering history art history literary studies and palaeography The volume looks in detail at Byzantium but also includes papers on Rus the Middle East and the Jewish contribution The book s eastern perspectives offer interesting comparisons and contrasts with the medieval West The book is illustrated with plates showing illuminated manuscripts and archaeological artefacts The contributors are Paul Botley Simon Franklin Catherine Holmes Erica Hunter John Lowden Paul Magdalino Margaret Mullett Stefan Reif Charlotte Roueche Natalie Tchernetska and Judith Waring **The Octateuchs** John Lowden,1992 Scholars have until now lacked a detailed study of the Octateuchs a group of five illustrated Byzantine manuscripts that accompany the text of the first eight books of the Bible Since the first historical studies of Early Christian and Byzantine art in the late nineteenth century the Octateuchs have been considered important to hypotheses about the development of biblical illustration as well as to more detailed iconographic studies John Lowden s study makes available much new information about the Octateuchs that includes a number of previously unpublished manuscript images and pages Lowden examines the Octateuchs both individually and as a group determining the relationships among them and offering many suggestions concerning the process of their creation The author also covers topics ranging from antiquity to the Renaissance and takes up issues as diverse as the invention of illustration the transmission of iconography the role of archetypes and lost models and the artist as copyist or inventor His broader discussion includes individual works ranging from Dura Europos to the Sistine Chapel and art historical constructs such as the Macedonian Renaissance In addition Lowden critically examines approaches to studies of such illustrations specifically those of Kurt Weitzmann Römische historische Mitteilungen ,2003 Journal of ancient Christianity ,2005 **Between Constantinople and Rome** Kathleen Maxwell,2016-12-05 This is a study of the artistic and political context that led to the production of a truly exceptional Byzantine illustrated manuscript Paris Biblioth que Nationale de France codex grec 54 is one of the most ambitious and complex manuscripts produced during the Byzantine era This thirteenth century Greek and Latin Gospel book features full page evangelist portraits an extensive narrative cycle and unique polychromatic texts However it has never been the subject of a comprehensive study and the circumstances of its

commission are unknown In this book Kathleen Maxwell addresses the following questions what circumstances led to the creation of Paris 54 Who commissioned it and for what purpose How was a deluxe manuscript such as this produced Why was it left unfinished How does it relate to other Byzantine illustrated Gospel books Paris 54 s innovations are a testament to the extraordinary circumstances of its commission Maxwell s multi disciplinary approach includes codicological and paleographical evidence together with New Testament textual criticism artistic and historical analysis She concludes that Paris 54 was never intended to copy any other manuscript Rather it was designed to eclipse its contemporaries and to physically embody a new relationship between Constantinople and the Latin West as envisioned by its patron Analysis of Paris 54 s texts and miniature cycle indicates that it was created at the behest of a Byzantine emperor as a gift to a pope in conjunction with imperial efforts to unify the Latin and Orthodox churches As such Paris 54 is a unique witness to early Palaeologan attempts to achieve church union with Rome

Picturing Kingship Harvey Stahl,2008 *Picturing Kingship* presents the first comprehensive art historical study of the personal prayerbook of King Louis IX The book approaches the St Louis Psalter through a rich range of perspectives and methodologies and positions it within the contexts of its production and use Not only is the manuscript s production and structure given detailed study but the king s ways of handling his prayerbook his habits of reading looking and praying are also set forth in a compelling narrative of his view of his sacred responsibilities as king In the first half of the book Stahl investigates the Psalter s physical construction and development within the context of manuscript production in thirteenth century Paris The second half looks at the Psalter s thematic and iconographic workings and the role of the king s adviser Vincent of Beauvais in the Psalter s shaping Most important though the author delves into the meanings the Psalter might have held for the king who was a crusader and so devout a Christian that he was canonized by Boniface VIII Stahl makes it clear that the Psalter already recognized as one of the true masterworks of thirteenth century French culture should also be recognized as a significant force in Louis IX s life and reign

Byzantine Liturgical Psalters and Gospels Kurt Weitzmann,1980 Everyday Life in Byzantium Greece. Hypourgeio Politismou,2002 **Byzantine Art and Archaeology** Ormonde Maddock Dalton,1911 Studies in Late Antique, Byzantine and Medieval Western Art Ernst Kitzinger,2001-12-31 The two volumes consist of thirty eight articles previously published by the author from 1938 to 1995 **Jahrbuch der österreichischen Byzantinistik** ,2002 **Romanesque Sculpture in Campania** Dorothy F. Glass,1991 This first comprehensive study in English of Romanesque sculpture in Campania places the material in the context of South Italian medieval culture Although medieval Campania was part of the Norman kingdom which at its zenith included almost all of South Italy it has distinguishable characteristics that set it apart from its neighbors the emphatic imprint of the Roman past a long lived Lombard settlement the authoritative conservatism of the abbey of Monte Cassino the lack of Byzantine dominance and close political and cultural ties with Sicily In this sense Romanesque sculpture in Campania is very much a local phenomenon for it evolved from a close study of local antiquity and

the selective adaptation of elements from neighboring provinces From its beginning Romanesque sculpture in Campania is characterized by attention to small scale decorative motifs seen on both portals and capitals By the latter part of the twelfth century an avid interest in stone pulpits and paschal candelabra fostered both internal consistency in local workshops and specifically Campanian content in part inspired by the local liturgy Dorothy Glass s study urges that the definition of Romanesque be both expanded and extended chronologically to include the southern Mediterranean
