Etc Richard Bentley, 1838 **Studies in Christian Philosophy** W. R. Matthews, 2015-06-02 Excerpt from *Studies in Christian Philosophy Being the Boyle Lectures 1920* I need hardly say that the studies printed in this volume make no pretension to exhaustiveness The reader will not find here even the outlines of a system of philosophy or theology and he will probably be as conscious as their author that many questions are raised which are not fully discussed while others which might have been relevant are passed over altogether It was necessary if the argument was to be pursued to the point where I intended to leave it to press swiftly forward over some of the ground but I hope that I may have an opportunity of considering some of these topics in the two succeeding courses of Boyle Lectures which will deal with Revelation and Incarnation My main object in these lectures has been to suggest that Christian doctrine rests upon a few simple affirmations of a philosophical character and to indicate a line of thought which seems to lead to the conclusion that these affirmations are rational About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *Auction catalogues of books* Puttick and Simpson (messrs.), 1846 **Natural Theology in the Scientific Revolution** Katherine Calloway, 2015-10-06 In the seventeenth century scientific discoveries called into question established Christian theology It has been claimed that contemporary thinkers contributed to this conflict model by using the discoveries of the natural world to prove the existence of God Calloway challenges this view by close examination of five key texts of the period **The Order of Things** Alister E.
