Canada's 1960s

Bryan Palmer,2008-03-29 Rebellious youth the Cold War New Left radicalism Pierre Trudeau Red Power Quebec's call for Revolution Marshall McLuhan these are just some of the major forces and figures that come to mind at the slightest mention of the 1960s in Canada Focusing on the major movements and personalities of the time as well as the lasting influence of the period Canada's 1960s examines the legacy of this rebellious decade's impact on contemporary notions of Canadian identity Bryan D Palmer demonstrates how after massive postwar immigration new political movements and at times violent protest Canada could no longer be viewed in the old ways National identity long rooted in notions of Canada as a white settler Dominion of the North marked profoundly by its origins as part of the British Empire had become unsettled Concerned with how Canadians entered the Sixties relatively secure in their national identities Palmer explores the forces that contributed to the post 1970 uncertainty about what it is to be Canadian Tracing the significance of dissent and upheaval among youth trade unionists university students Native peoples and Quebecois Palmer shows how the Sixties ended the entrenched nineteenth century notions of Canada The irony of this rebellious era however was that while it promised so much in the way of change it failed to provide a new understanding of Canadian national identity A compelling and highly accessible work of interpretive history Canada's 1960s is the book of the decade about an era many regard as the most turbulent and significant since the years of the Great Depression and World War II

The Canadian Labour Movement Craig Heron,2020-06-01

In

The Canadian Labour Movement historian Craig Heron and political scientist Charles Smith tell the story of Canada's workers from the midnineteenth century through to today painting a vivid picture of key developments such as the birth of craft unionism the breakthroughs of the fifties and sixties and the setbacks of the early twenty first century The fourth edition of this book has been completely updated with a substantial new chapter that covers the period from the great recession of 2008 through to 2020 In this chapter Smith describes the fallout of the financial crisis how Stephen Harper's government restricted labour rights the rise of the gig economy and precarious work and the continued de industrialization in the private sector These pressures contributed to fracturing the movement as when Unifor the largest private sector union split from the Canadian Labour Congress the established house of labour Through it all rank and file union members have fought for better conditions for all workers including through campaigns like the fight for a 15 minimum wage The Canadian Labour Movement is the definitive book for anyone interested in understanding the origins achievements and challenges of the labour and social justice movements in Canada *Canadian History: Confederation to the present* Martin Brook Taylor,Doug Owram,1994-01-01 In these two volumes which replace the Reader's Guide to Canadian History experts provide a select and critical guide to historical writing about pre and post Confederation Canada with an emphasis on the most recent scholarship Cover **The Annals of the American Academy of Political and Social Science** ,1971-11

International Labour Documentation International Labour Office. Central Library and Documentation Branch,1971 **Labouring the Canadian Millennium** Bryan D. Palmer,Canadian Committee on Labour History,2000 This is a collection of commissioned essays that are purposively eclectic but that address themes of importance in understanding labour's significance and history over the course of the last century as well as suggesting how labour will inevitably face changing circumstances **The State of the Art in Industrial Relations** Canadian Industrial Relations Association,1988

The Political Economy of Manitoba Jim Silver,University of Regina. Canadian Plains Research Center,1990 A common theme that links the chapters in this document is the centrality of political struggle and its relationship to the origins development and structure of the political economy Many of the chapters analyze important aspects of the origin and historical development of those struggles Others focus on more recent developments particularly the gradual transformation of the social and economic structure of the province within which a wider variety of struggles has emerged including those

relating to the restructuring of the family the redefinition of the role of women the recomposition of the working class and
