## **The Breaking Of Bumbo:**

**The Breaking of Bumbo** Andrew Sinclair, 1977      *EMI Films and the Limits of British Cinema* Paul Moody, 2018-10-19

This book is the first of its kind to trace the development of one of the largest and most important companies in British cinema history EMI Films From 1969 to its eventual demise in 1986 EMI would produce many of the key works of seventies and eighties British cinema ranging from popular family dramas like *The Railway Children* Lionel Jeffries 1970 through to critically acclaimed arthouse successes like *Britannia Hospital* Lindsay Anderson 1982 However EMI's role in these productions has been recorded only marginally as footnotes in general histories of British cinema The reasons for this critical neglect raise important questions about the processes involved in the creation of cultural canons and the definition of national culture This book argues that EMI's amorphous nature as a transnational film company has led to its omission from this history and makes it an ideal subject to explore the limits of British cinema      *Forgotten British Film* Philip

Gillett, 2017-05-11 Some films are remembered long after they are released others are soon forgotten but do they deserve oblivion Are factors other than quality involved This book exhumes some of the films released in Britain over the last seventy years from *Daybreak* 1948 to *16 Years of Alcohol* 2003 and considers the reasons for their neglect As well as exploring the contributions of those involved in making the films the book examines such issues as marketing and the response of critics and audiences Films are grouped loosely into categories such as B films and television films Some works were little seen when they were first released and have stayed that way others were popular in their day but have slipped into obscurity In some cases social change has overtaken them making the attitudes or subjects they depict seem dated Even being released as a DVD does not guarantee that a title will be rehabilitated In addition how significant is the American market This book should appeal to lovers of British film as well as to film studies students and everybody curious about the vagaries of success and failure in the arts      *Psychedelic Celluloid* Simon Matthews, 2016-10-27 *Psychedelic Celluloid* is the definitive guide to the decade when swinging London was the film capital of the world Illustrated throughout with colour images of the period and covering over 300 British and European films and TV shows *Psychedelic Celluloid* moves from the Beatles via Bond spin offs to crazy personal folies des grandeurs *Blow Up* and its imitators concert movies documentaries stylish horror films and many more Carefully researched and drawing on interviews with some of the survivors of the era *Psychedelic Celluloid* provides a witty and detailed account of each major production listing its stars directors producers and music and showing how they were linked to the fashion and trends of the period *Psychedelic Celluloid* covers the swinging sixties in minute detail noting the influence of pop on hundreds of productions *The Independent* While the pop and rock of the 60s has been the subject of innumerable studies and people have catalogued the films too often at great length up until now no one has put the two together Little White Lies A richly illustrated guide The Bookseller ONLY SUITABLE FOR VIEWING ON A LAPTOP

COMPUTER or LARGE TABLET      *Colour Films in Britain* Sarah Street, Keith M. Johnston, Paul Frith, Carolyn

Rickards,2021-11-18 The story of Eastmancolor s arrival on the British filmmaking scene is one of intermittent trial and error intense debate and speculation before gradual acceptance This book traces the journey of its adoption in British Film and considers its lasting significance as one of the most important technical innovations in film history Through original archival research and interviews with key figures within the industry the authors examine the role of Eastmancolor in relation to key areas of British cinema since the 1950s including its economic and structural histories different studio and industrial strategies and the wider aesthetic changes that took place with the mass adoption of colour Their analysis of British cinema through the lens of colour produces new interpretations of key British film genres including social realism historical and costume drama science fiction horror crime documentary and even sex films They explore how colour communicated meaning in films ranging from the Carry On series to Monty Python s Life of Brian 1979 from Lawrence of Arabia 1962 to A Passage to India 1984 and from Goldfinger 1964 to 1984 1984 and in the work of key directors and cinematographers of both popular and art cinema including Nicolas Roeg Ken Russell Ridley Scott Peter Greenaway and Chris Menges
