The British Of Railways:

British Railways 1948-73 T. R. Gourvish, 2011-04-28 Originally published in 1986 this is a business history of the first twenty five years of nationalised railways in Britain Commissioned by the British Railways Board and based on the Board's extensive archives it fully analyses the dynamics of nationalised industry management and the complexities of the vital relationship with government After exploring the origins of nationalisation the book deals with the organisation financial performance investment and commercial policies of the British Transport Commission 1948 2 Railway Executive 1948 53 and British Railways Board 1963 73 Calculations of profit and loss investment and productivity are provided on a consistent basis for 1948 73 This business history thus represents a major contribution not only to the debate about the role of the railways in a modern economy but also to that concerning the nationalised industries which have proved to be one of the most enduring problems of the British economy since the war **Presentation by Sir Peter Parker, Chairman of the British Railways Board, on British Railroad Experience** United States. uncertainty As a standard of measurement a train is little better than the historical lump of chalk One train may carry 600 tons or in America perhaps tons of paying freight whilst another train may consist of two small waggons with two tons in each waggon run at a loss under the incentive of keen competition In train mile statements each of these trains are treated as if they were identical Hence whilst train mile figures are most useful essential indeed for some purposes they are for other purposes utterly unsound and worthless Why should not both ton miles and train miles be used according to their respective values for the purpose in view at the moment Surely in selecting a statistical unit for any statement it is invariably right to choose the best that is available About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *The Building of Britain's Railways* Catherine Chambers,2017 **Railway News, Finance and Joint-stock Companies' Journal** ,1898
