

### ***Switch off that LIGHT!***

Use Electric appliances less. Cut down in Lighting, Heating and Cooking. Generating Electricity consumes coal. Coal is vitally needed for war production.

### ***Turn that GAS down!***

Never burn gas needlessly. Never have gas higher than you need for heating, cooking or lighting. Gas wasted means coal wasted instead of being used to make munitions.

### ***Don't waste WATER!***

Never wash under a running tap—use less water in your bath, in your kettle, and for washing up. Hot water takes fuel. Cold water uses power when it's pumped along mains.

## **The Built-in US War Drive:**

**World War II U.S. Navy Vessels in Private Hands** Greg H. Williams, 2014-01-10 During World War II the U S Navy swiftly expanded to include an array of vessels from smaller yachts and fishing boats bought early in the war for patrol work to fast modern commercial ships built to haul troops and supplies After the Allied victory this diverse fleet became unnecessary and the Navy sold many of its vessels This comprehensive catalog documents the Navy ships and boats sold after the war and registered under the American flag for commercial or recreational purposes Focusing on those vessels with names or clearly identifiable hull numbers and crew accommodations it chronicles each craft s prewar ownership wartime history and postwar fate The product of painstaking detective work in a wide range of primary sources this meticulous directory highlights an unexplored but illuminating aspect of U S maritime history
