**The Bull Leapers** James Watson,1970     *Matriarchy in Bronze Age Crete* Joan M. Cichon,2022-06-30 This book makes a compelling case for a matriarchal Bronze Age Crete It is acknowledged that the preeminent deity was a Female Divine and that women played a major role in Cretan society but there is a lively ongoing debate regarding the centrality of women in Bronze Age Crete a gap in the scholarly literature which this book seeks to fill     *Chryselephantine Statuary in the Ancient Mediterranean World* Kenneth D. S. Lapatin,2001 Composite statues of gold chrysolite ivory and other precious materials were the most celebrated artworks of classical antiquity Greek and Latin authors leave no doubt that such images provided a centrepiece for religious and civic life and that vast sums were spent to produce them A number of these statues were the creations of antiquity's most highly acclaimed artists Polykleitos Alkamenes Leochares and of course Pheidias whose magnificent Zeus Olympios came to be ranked among the Seven Wonders of the World Although a few individual images such as Pheidias Athena Parthenos have been the subject of detailed scholarly analysis chryselephantine statuary as a class from the exquisite statuettes of Minoan Crete to the majestic temple images constructed by classical Greek city states and imitated by the Romans has not received comprehensive study since 1815 This book presents not only the ancient literary and epigraphical evidence for lost statues and examines representations of them in other media but also assembles and analyses much neglected physical survivals elucidating throughout the innovative techniques such as ivory bonding employed in their production as well as the variety of social religious and political roles they played within the ancient societies that produced them     **Representations of Gender From Prehistory To the Present** NA NA,2016-04-30

Focusing primarily on visual forms of representation but also including material on literary representation this volume brings together studies as apparently disparate as the iconography of power in Mediterranean prehistory and clothing and cultural meaning in the First and Second World Wars What draws these chapters together is the common focus on how the scholar of the twenty first century can pursue the interpretation of past representational cultural production from a gendered perspective The fruit of research by academics from the fields of archaeology classics and ancient history art history and social history and from both sides of the Atlantic this volume is a fascinating introduction to a developing field     *The Elementals* Morgan Llywelyn,2010-04-01 The bestselling author of Lion of Ireland turns her storytelling gift to a New Age eco fantasy each tale bears its own compelling message Library Journal Morgan Llywelyn returns with a powerful fantasy saga that sweeps from the dawn of history to our own near future It is the story of Earth and her elements and of the men and women whose fate lies in her hands Water The ice caps melt the seas rise and Kesair a woman of Atlantis leads a handful of survivors on a desperate search for land and a new beginning Fire All the world centers around the empire of Crete where Meriones a humble musician performs before the mighty in their palaces Until the land shakes the volcano speaks with a voice of fire and Meriones's life is changed forever Earth Old beyond imagining the Earth knows neither hate nor pity And

from Annie Murphy a New England housewife it demands an unexpected and irrevocable sacrifice Air The ozone dwindles and the forests dies a new plague walks the world And on a day just after tomorrow thousands of years after Kesair's struggle another small party of survivors led by George Burningfeather comes together on a desolate Indian reservation As the ice melts and the sea rises once more they fight one last battle for the Earth for mankind and hope The Elementals is the epic tale of humanity's turbulent relationship with the Earth as only Morgan Llywelyn could tell it An alluring ecological fantasy Poetic Publishers Weekly *Following the Sun* John Hanson Mitchell, 2014-09-02 Author John Hanson Mitchell recounts a marathon bicycle trek from Andalusia to the Outer Hebrides tracing solar myths sun cults birds and flowering plants all along the way

Anatolia to Cyprus Egypt and the Aegean **Minoans** Rodney Castleden, 2002-01-04 Thoroughly researched Rodney Castleden's Minoans Life in Bronze Age Crete here uses the results of recent research to produce a comprehensive new vision of the peoples of Minoan Crete Since Sir Arthur Evans rediscovered the Minoans in the early 1900s we have defined a series of cultural traits that make the Minoan personality elegant graceful and sophisticated these nature lovers lived in harmony with their neighbours while their fleets ruled the seas around Crete This at least is the popular view of the Minoans But how far does the later work of archaeologists in Crete support this view Drawing on his experience of being actively involved in research on landscapes processes and prehistory for the last twenty years Castleden writes clearly and accessibly to provide a text essential to the study of this fascinating subject

**Red Thread** Charlotte Higgins, 2018-08-02 Charlotte Higgins's Red Thread is a masterpiece Ali Smith A thrillingly original labyrinthine journey through myth art literature history archaeology and memoir The tale of how the hero Theseus killed the Minotaur finding his way out of the labyrinth using Ariadne's ball of red thread is one of the most intriguing suggestive and persistent of all myths and the labyrinth the beautiful confounding and terrifying building created for the half man half bull monster is one of the foundational symbols of human ingenuity and artistry Charlotte Higgins author of the Baillie Gifford shortlisted Under Another Sky tracks the origins of the story of the labyrinth in the poems of Homer Catullus Virgil and Ovid and with them builds an ingenious edifice of her own Along the way she traces the labyrinthine ideas of writers from Dante and Borges to George Eliot and Conan Doyle and of artists from Titian and Velázquez to Picasso and Eva Hesse Her intricately constructed narrative asks what it is to be lost what it is to find one's way and what it is to travel the confusing and circuitous path of a lived life Red Thread is above all a winding and unpredictable route through the byways of the author's imagination one that leads the reader on a strange and intriguing journey full of unexpected connections and surprising pleasures

**Labyrinth Revisited** Yannis Hamilakis,2002 Minoan Crete is one of the most intensively investigated archaeological cultures in the world and one that has often captured the public imagination It is a Bronze Age Aegean society but it has been intimately connected with the Classical Greek myth of King Minos and his Labyrinth since Sir Arthur Evans excavated and restored some would say rebuilt the important site of Knossos more than a century ago Yet many archaeological interpretations of this fascinating culture are still largely traditional in focus and often anachronistic This collection of papers challenging and re examining many conventional and established versions of Minoan history is thus long overdue How have modern preconceptions and socio political developments shaped archaeological interpretations of Minoan society What were the gender roles and attitudes of the inhabitants of Bronze Age Crete How can data such as the puzzling architecture the stunning wall paintings the elaborate and abundant pots the landscape and the way it is perceived by humans help us understand the nature and the negotiations of power and the role of the so called palaces These are some of the questions that this book addresses considering Minoan archaeology from a variety of interpretive angles and situating Minoan archaeology in the mainstream of archaeological thinking and practice    **Performance, Power and the Art of the Aegean Bronze Age** Senta C. German,2005 Are we to believe that Late Minoan Crete was over run with dancers and bull leapers As Senta German shows dancing and bull leaping were the most prevalent themes of Late Bronze Age glyptic art although aside from their demonstration of a social and perhaps symbolic activity they also had a much deeper function in Late Minoan society    *Minoan Religion* Nanno Marinatos,1993    *The Golden Savage* Anne Carsley,1984-12    *The Triumph of the Greeks* Robert Payne,1964    *Vogue* ,1962    *The Archaeological Museum of Herakleion* Archaiologikon Mouseion Hērakleiou,Nota Dimopoulou-Rethemiotaki,2005    **The Destruction of Knossos** H.
