

The background of the book cover is a dark, textured blue. It is populated with numerous overlapping circles and ovals in various colors, including yellow, red, orange, light blue, and white. A large, dark purple, irregular shape dominates the right side of the cover, partially obscuring the title. The title 'The Capitalist State' is written in a bold, white, sans-serif font across the upper middle section. The author's name 'Bob Jessop' is in a smaller, white, sans-serif font to the right of the title. The subtitle 'Marxist Theories and Methods' is at the bottom in a white, sans-serif font.

This edited volume presents an interdisciplinary and international revaluation of Friedrich Engels as much more than junior partner to Karl Marx or second fiddle in the Marxist orchestra. The nineteen critical essays in this collection are the work of scholars from Germany, USA, UK, Italy, China, India, Mexico, and the Philippines. Together they present and evaluate archival material and scholarly commentary that covers epistemology, political economy, political theory, gender studies, cultural studies, political geography, philosophy of social science, and sociological studies of class conflict. Students, activists, and specialists will find fresh consideration of familiar works such as *The Condition of the Working Class in England*, *The Origin of the Family, Private Property and the State*, and *The Dialectics of Nature*. They will also be able to explore Engels's less familiar pamphleteering, literary criticism, and political commentary through detailed contextualization and careful analysis. *Friedrich Engels for the 21st Century: Perspectives and Problems* is unique in putting different intellectual and political receptions of Engels's work into productive conversation, particularly from non-Anglophone scholars translated here into English. Readers will appreciate why Engels has been so widely celebrated some two hundred years after his birth. *Bringing the State Back In* Social Science Research Council (U.S.). Committee on States and Social Structures, Joint Committee on Latin American Studies, Joint Committee on Western Europe, 1985-09-13. Papers from a conference held at Mount Kisco, N.Y., Feb. 1982, sponsored by the Committee on States and Social Structures, the Joint Committee on Latin American Studies, and the Joint Committee on Western European Studies of the Social Science Research Council. Includes bibliographies and index.

An indispensable and exemplary reference work, this Encyclopedia adeptly navigates the multidisciplinary field of critical political science, providing a comprehensive overview of the methods, approaches, concepts, scholars, and journals that have come to influence the discipline's development over the last six decades.     **The Poverty of Planning** Benno Engels,2021-01-15. Using a neo-Marxian perspective, Benno Engels examines the absence of urban planning in nineteenth-century England. In his analysis of urbanization in England, Engels considers the influences of property owners, inheritance laws, local government structures, fiscal crises of the local and central state, shifts in voter sentiments, fluctuating economic conditions, and class-based pressure group activity.     **Claus**

**Offe and the Critical Theory of the Capitalist State** Jens Borchert, Stephan Lessenich,2016-04-28. Back in 1972, German political sociologist Claus Offe published a book on the Structural Problems of Late Capitalism, which for almost two decades inspired and stimulated an international and transdisciplinary debate on the role of the state in contemporary capitalism. An academic debate which paradoxically began to wane as the issues about which Offe had been writing became even more

prominent the Contradictions of the Welfare State the title of a collection of Offe's main contributions to the debate published in English in 1984 and democratic capitalism's reality of the permanent crises of crisis management Since 2008 it has again become a widely shared diagnosis that advanced capitalism is in crisis However there is either scholarly disagreement or more often so mere perplexity when it comes to understanding this crisis and to explaining the prevalent patterns in dealing with it In this volume Jens Borchert and Stephan Lessenich critically combine a reconstruction Claus Offe's approach to state theory with an analysis of the current constellation of democratic capitalism based on that same theory In doing so they expertly argue that his relational approach to state theory is much better equipped analytically to grasp the contradictory dynamics of the financial crisis and its political regulation than competing contributions This is why systematically revisiting the theory of late capitalism is not only of a historical concern but constitutes an essential contribution to a political sociology of our time     Power and Marxist Theory Jeffrey C.
