**Essex Class Carriers in Action** Michael Smith, 1997-01-01      **Essex-Class Aircraft Carriers 1945-91** Mark Stille, 2022-09-15 A history of the enduring Essex class ships the US Navy's finest and most numerous fleet carrier during World War II which were modernized repeatedly and served with distinction The Essex class was the USN's war winning ship class of the Pacific War Of the 24 ships completed 14 saw action making the Essex class the largest class of fleet aircraft carriers ever built These ships had a fine balance of striking power protection and speed and were modernized during and after the war There were five distinct programs carried out adding not only angled flight decks for jet operations but repeated upgrades to sensors weapons and equipment Essex class carriers were used in a number of roles and provided the vast majority of US Navy air power in the Korean War and a sizeable proportion of air power in the Vietnam conflict However as the super carriers began to enter service in the early 1960s the Essex class was relegated to secondary roles a single Essex carrier served until 1991 as the US Navy's training carrier Using detailed artwork and photos this book provides an in depth portrait of this important and enduring class of ship and looks at its development and modifications while considering the many and varied actions it took part in      **Hearings, Reports and Prints of the House Committee on Armed Services** United States. Congress. House. Committee on Armed Services, 1972      Hearings on Military Posture and H.R. 12604 to Authorize Appropriations During the Fiscal Year 1973 for Procurement of Aircraft, Missiles, Naval Vessels, Tracked Combat Vehicles, Torpedoes United States. Congress. House. Committee on Armed Services, 1972      **United States Fleet Carriers of World War II "in Action"** Richard Humble, 1984      **US Navy Carrier Aircraft vs IJN Yamato Class Battleships** Mark Stille, 2015-09-20 As the Pacific War approached a crescendo the clashes between swarming US Navy carrier aircraft and the gigantic Imperial Japanese Navy IJN Yamato class battleships became symbolic of the fortunes of the two nations They also served as a metaphor for the profound changes in naval technology and doctrine that the war had brought about The two opposing forces were the most powerful of their kind the Japanese Yamato and Musashi were the biggest most heavily armored and armed battleships ever built while US carrier aviation had evolved into a well oiled war winning machine With detailed analysis of the technical features of the opposing war machines and a gripping account of the fighting itself this vividly illustrated work presents views from the cockpits of US Navy Divebombers and down the sights of IJN anti aircraft guns during two of the most dramatic naval engagements ever fought      **Aircraft Carriers of the United States Navy** Michael Green, 2015-04-30 This pictorial history of US aircraft carriers illustrates the many classes and types of carriers used by the navy from before WWII to the present day In 1922 the US Navy commissioned its first small experimental aircraft carrier This was followed into service by two much larger carriers in 1927 with five more being built including three large Yorktown class prior to the Japanese attack on Pearl Harbor Then to take the offensive against the Japanese Navy the American Congress funded by far the largest carrier building program in history Since 1975 when the first

of a fleet of ten nuclear powered Nimitz class carriers was commissioned The United States Navy s fleet of carriers has optimized its superpower status and worldwide power projection Yet these are due to be replaced in the decades to come with the even more sophisticated nuclear powered Gerald R Ford class

Compiled and written by Michael Green Aircraft Carriers of the United States Navy contains superb images of all the different types of classes of carriers employed by the US Navy since 1922 These and its highly informative text and captions give the reader a broad overview of this fascinating subject
